

Malfunction Indicator Light

65D530

Your vehicle has a computer-controlled emission control system. A malfunction indicator light is provided on the instrument panel to indicate when it is necessary to have the emission control system serviced. The malfunction indicator light comes on when the ignition switch is turned to "ON" and goes out when the engine is started.

If the malfunction indicator light comes on or blinks when the engine is running, there is a damage in the emission control system. Bring the vehicle to your SUZUKI dealer to have the damage fixed.

For Diesel Engine Model

If this light blinks when the engine is running, reduce the engine speed until the light stops blinking.

Bring the vehicle to your SUZUKI dealer as soon as possible.
