 license *Living With Xenophobia* Crush, Jonathan,Tawodzera, Godfrey,2017-08-08 This report examines the impact of
 xenophobic violence on Zimbabweans who are trying to make a living in the South African informal sector and finds that
 xenophobic violence has several key characteristics that put them at constant risk of losing their livelihoods and their lives
 The businesses run by migrants and refugees in the informal sector are a major target of South Africa s extreme xenophobia
 Attitudinal surveys clearly show that South Africans differentiate migrants by national origin and that Zimbabweans are

amongst the most disliked This report is based on a survey of informal sector enterprises in Cape Town and Johannesburg and 50 in depth interviews with Zimbabwean informal business owners in Cape Town Johannesburg and Polokwane who had been affected by xenophobic violence In many areas community leaders are ineffective in dealing with the violence and in some cases they actively foment hostility and instigate attacks The fact that migrant entrepreneurs provide goods including food at competitive prices and offer credit to consumers is clearly insufficient to protect them when violence erupts However the deep rooted crisis in Zimbabwe makes return home a non viable option and Zimbabweans instead adopt several self protection strategies none of which is ultimately an insurance against xenophobic attack The findings in this report demonstrate that xenophobic violence fails in its two main aims to drive migrant entrepreneurs out of business and to drive them out of the country
