2016 Prospecture For Ump

Bikram Pattanaik

2016 Prospecture For Ump:

Urban Development and Planning Bikram Pattanaik, 2025-03-20 This book details the most contemporary concerns related to urban development governance and planning as well as the challenges to urban administration. It analyses the policies and programmes adopted by both high income and lower middle income countries to achieve sustainable urbanization and their application and treatment to help students get a holistic practical perspective of the issues at hand. This volume elucidates urban development theories and approaches coupled with urban planning, local government finance, urban management and urban governance. It also discusses urban issues and challenges such as education, health, waste management, land use planning, housing and transport. Critical concerns related to urban water bodies, open spaces, urban heritage and smart cities and urban future are similarly addressed. This book will be useful to students, researchers and teachers of urban planning and architecture, urban sociology, economics, geography, environmental science and public administration. It shall also be useful to NGOs, parastatal bodies and trainers of urban planning and development. Planners, policymakers, functionaries and elected representatives of urban local bodies may also use this book as a capacity building instrument.

Institutional Development Ronald McGill, 2016-07-27 This book reviews the theoretical perspectives on institutional development (ID) and third world city management. It considers the practice of ID in city management by reviewing two related cases on organizational strengthening and building a planning capability both in local government. The synthesizing chapters offer some guidelines on and tests for ID in city management practice. The book therefore seeks to identify some general principles to guide the ID process in relation to third world city management.
