2020u S Budget Deficit Report

Oliver Cornock

2020u S Budget Deficit Report:

The Report: Bahrain 2020 Oliver Cornock, Bahrain pioneered oil production in the Middle East beginning in the 1930s establishing the region's initial framework for the petroleum industry. Some 90 years later oil and gas operations comprise 18% of GDP with the economy well diversified to host established financial services and industrial sectors as well as unique tourism offerings.

The Report: Indonesia 2020 Oliver Cornock, Indonesia is the world's 16th largest economy and presents an enticing opportunity for investors with ongoing reform efforts and attractive demographics. Meanwhile a booming start-up ecosystem signals the country's rising consumer power and regional influence. While headwinds are expected to follow Covid 19, Indonesia's strong foundations will help maintain momentum in the medium to long term.

The Report: Nigeria 2022 Oliver Cornock, With a population of over 200m, Nigeria is a large and diversified economy despite the government's reliance on oil and gas revenue. While the Covid 19 pandemic and subsequent oil price crash caused a contraction in economic growth in 2020, it also led to rapid digitalisation across commerce, education and communication. This shift is expected to put Nigeria in a favourable position for recovery in the future.

Community, Economy and COVID-19 Clifford J. Shultz, II, Don R. Rahtz, M. Joseph Sirgy, 2022-08-23. This volume explores the impact of the COVID 19 pandemic on the health, safety and socioeconomic well-being of community residents of selected countries around the world. It is built on an overarching framework of studying community well-being applied here to the analyses of one of the most significant crises of our time. Most important are the lessons learned from the experiences in these countries, including insights and recommendations on how to mitigate future pandemics. Building on years of research, each chapter is written by an accomplished scholar with interests and expertise on various assessments of community well-being development in the country of study. The authors share cases and analyses and highlight failures and successes; they offer sound policy recommendations on how to restore the health, safety and multidimensional wellness of community residents and how to decrease the likelihood and impact of future crises. Some of the policy recommendations in this multi-country compendium can be used to assist crisis prevention and recovery beyond pandemics. The volume shows how the lessons learned and shared from community responses to the pandemic can provide critical and useful policy insights to shape best practices in mitigating other disasters like hurricanes, floods, earthquakes, tornadoes, wars, riots, acts of domestic and international terrorism, weapons of mass destruction and industrial accidents. This is a must-read for researchers across the social sciences, health sciences and management studies and for government and non-government professionals involved in community health and well-being.

Cornock, Saudi Arabia's decision to weaken the link between hydrocarbons and economic growth and pursue a policy of diversification has seen projects across a range of sectors come to fruition in the last several years. While at present the twin crises presented by the Covid 19 pandemic and the unprecedented plunge in oil prices are causing significant short term uncertainty, the reforms that have been put in place in recent years should stand the Kingdom in good stead over the longer term.

Republic of Azerbaijan: 2021 Article IV Consultation-Press Release; and Staff Report International Monetary Fund. Middle East and Central Asia Dept., 2021-12-22 Azerbaijan faced unprecedented challenges in 2020. The combined COVID 19 and oil price shocks pushed the economy into recession. A sizeable relief package helped cushion the economic impact from this shock and the economy has started to recover. Yet the medium term outlook remains subdued. The long term fiscal position is unsustainable as oil resources are expected to run out by mid century. The authorities have laid out strategic goals of accelerated yet sustainable socio economic development over the next decade and are developing policy plans to that end.
