2september Paper One Geography Memorandum:

The Geography of Perversion Rudi Bleys,1996-07 Exploring the Western conceptualizations of non western patterns of same sex desire and the evolution of European attitudes to homosexuality this research particularly examines how the construction of sodomite identity was intertwined with essentialist definitions of so called racial identity South African geographer ,1987

Burke and Wills EB Joyce,DA McCann,2011-11-02 This book challenges the common assumption that little or nothing of scientific value was achieved during the Burke and Wills expedition The Royal Society of Victoria initiated the Victorian Exploring Expedition as a serious scientific exploration of hitherto unexplored regions of inland and northern Australia Members of the expedition were issued with detailed instructions on scientific measurements and observations to be carried out covering about a dozen areas of science The tragic ending of the expedition meant that most of the results of the scientific investigations were not reported or published Burke and Wills The Scientific Legacy of the Victorian Exploring Expedition rectifies this historic omission It includes the original instructions as well as numerous paintings and drawings documents the actual science undertaken as recorded in notebooks and diaries and analyses the outcomes It reveals for the first time the true extent and limits of the scientific achievements of both the Burke and Wills expedition and the various relief expeditions which followed Importantly this new book has led to a re appraisal of the shortcomings and the successes of the journey It will be a compelling read for all those interested in the history of exploration science and natural history as well as Australian history and heritage

Russian Energy Policy and Military Power Pavel K. Baev,2012-12-06 This book examines the interplay between energy policy and security policy under Vladimir Putin and his drive to re establish Russia s greatness Assessing the internal contradictions of this policy the book argues that Russia s desire to strengthen its role of energy security provider is undermined by its inability to secure growth

in production of oil and gas Further the pressing demand to channel more resources into the military industrial complex clashes with the growing need to invest in the energy complex and the priority granted to strategic forces deprives the conventional forces of strike power and strategic mobility In conclusion the author anticipates how these contradictions could be resolved and suggests three short scenarios for Russia s continuing transition in the next decade This book will be of interest to students of Russian politics European politics and international security **Current Geographical Publications**
