

MY PERFECT POOL

POOL MAINTENANCE CHEAT SHEET

Never Guess Which Chemical to Use Again...
A foolproof guide to pool maintenance for beginners

DAILY

Run filter and pump

Min 6 hours in winter
10-12 hours in summer
Use a timer to save...you know, time
Skim pool surface

WEEKLY

Empty skimmer baskets
(daily if you have lots of trees)

Empty Pump basket
(daily if you have lots of trees)

Vacuum pool
(automatic cleaner or manual)

Brush pool walls

Test water twice a week & balance

Check filter pressure. Backwash or clean filter when 10 psi higher than normal

Check pool water level.
Should be the center of the skimmer.

MONTHLY

Inspect equipment for leaks
(valves, pipes, filter, pumps, heaters etc.)

You'll see water if there is a leak.

Saltwater Pools

Test salt levels & top up if necessary
Inspect salt cell and clean if there are excessive calcium deposits

Optional

Shock pool if you notice algae.
If you maintain your chlorine, pH and stabilizer levels well, you shouldn't need to do this

QUARTERLY

- Check filter cartridges and replace if necessary
- Lubricate pump lid O-Ring
- Clean filter with filter cleaner twice a year

PRO TIP

After rain, excessive wind or heavy pool use, always test your pool water. It may also be helpful to shock the pool. There can be a lot of contaminants in the water after rain, wind or heavy pool use.

WHAT CHEMICALS TO ADD WHEN

Marketing Plans for Services Malcolm McDonald, Pennie Frow, Adrian

Payne, 2011-07-20 *Marketing Plans for Services Third Edition* is written in a pragmatic action orientated style and each chapter has examples of marketing planning in practice. The authors highlight key misunderstandings about marketing and the nature of services and relationship marketing. The marketer is taken step by step through the key phases of the marketing planning process and alerted to the barriers that can prevent a service organization being successful in introducing marketing planning. Practical frameworks and techniques are suggested for undertaking the marketing planning process and implementing the principles covered. The world renowned authors also tackle key organizational aspects relating to marketing planning which can have a profound impact on its ultimate effectiveness. These include marketing intelligence systems, market research, organization development, stages, marketing orientation. *Marketing Plans for Services* is for marketers in the service sector and students of marketing. *Marketing Plans for Services* is clearly the premier text in the field. From an explanation of why services are driving all marketing activities to measuring the results and all things in between, this new and updated text explains why and how services are the key elements for most all 21st century organizations. Follow the masters of service marketing to marketplace success. Professor Don Schultz, Northwestern University, McDonald Frow and Payne have worked extensively with a wide range of service businesses across the globe in successfully realising their growth opportunities. This experience shows in this practical text which contains all one needs to know in developing and implementing successful marketing plans for service organizations. This book represents a tested roadmap for planning services marketing success and combines an excellent balance of key concepts, frameworks and tools with practical advice. Their proven step by step marketing planning system for services and the examples of marketing plans make this a must have book that should be on the desk of any forward thinking services marketer. Mark Veyret, Global Business Development Leader, PricewaterhouseCoopers. Marketing planning is crucial today where increased competition, complexity and the internet forces you to redefine your marketing strategy and focus more clearly on what is required to achieve improved results. If not, you will not succeed in meeting these challenges. McDonald Frow and Payne are internationally recognized authorities in marketing planning and services marketing. Based on their extensive experience across in helping organizations from a wide range of service sectors, this book gives you the practical how to skills to successfully implement strategic marketing plans. Bob Barker, Vice President of Corporate Marketing and Digital Engagement, Alterian. SC Collaborator. Chin Pang Cheng, 2009. Importance of supply chain integration has been shown in many industry sectors. The construction industry is one of the least integrated among all major industries. One of the major reasons is that construction supply chains are unstable and often consist of numerous distributed members, most of which are small and medium construction companies. With the proliferation of the Internet and the current maturity of web services standards, service oriented architecture (SOA) with open source technologies is a desirable computing model to support construction supply chain integration and collaboration due to its flexibility and low cost. This thesis investigates and demonstrates the potential

of the current web services technologies and SOA for construction supply chain collaboration and management through a prototype service oriented system framework namely SC Collaborator Supply Chain Collaborator SC Collaborator is designed and implemented according to the system requirements for construction supply chain integration The framework leverages web services and portal technologies open standards and open source packages Although some web services systems allow user connection and integration through web services protocol their system functions and operations are fixed and not adaptive to changes The SC Collaborator framework enables flexible reconfiguration of internal service invocation integration and system layout without recompilation of the system To align a collaborative system with the supply chains it integrates this thesis proposes and demonstrates the incorporation of supply chain models in a service oriented system framework Specifically the Supply Chain Operations Reference SCOR framework a widely used model developed by the Supply Chain Council is employed to model construction supply chains The SCOR modeling framework provides a generic and hierarchically structured means to specify supply chain networks and processes The SCOR process elements and operations are wrapped as individual web service units which are integrated and orchestrated in the service oriented SC Collaborator framework A case example on a student center construction project is used to illustrate the SCOR modeling framework for performance monitoring The SC Collaborator framework is also extended to support collaboration among distributed service oriented collaborative systems Due to the temporary project based relationship among participants in construction projects project participants that do not have direct business partnership may hesitate to expose and share sensitive and proprietary information with each other The distributed SC Collaborator framework allows users to specify shared information and data This thesis discusses how information consistency is ensured among distributed SC Collaborator systems The distributed network of SC Collaborator systems is tested with a case scenario of a completed expansion project of a three storey residential building
