0620 CHEMISTRY

0620/33

Paper 3 (Extended Theory), maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2014 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

Social Innovation and Sustainability Transition Geoff Desa,Xiangping Jia,2022-11-09 This book uses a historical and modern lens to reimagine the role that Extension could potentially play in catalyzing reciprocal co learning relationships between Land Grant Universities and their diverse local constituencies The establishment of statewide extension systems was once seen as a way to ensure that Land Grant Universities would be accessible and responsive to all of a state s residents Extension systems continue to offer a front door to a major public university in almost every county of the United States but they tend to be viewed primarily as a way to translate science or distribute information from the university to the public This books argues for the importance of Extension and shows that we are conceiving of this system too narrowly Only by retelling the stories of the Extension and getting people to see themselves as part of the story can we imagine a different future in which state universities and land grant colleges engage more authentically and equitably in two way relationships with their local constituents in catalyzing reciprocal co learning relationships between Land Grant Universities and their diverse local constituencies Chapter Palatable disruption the politics of plant milk chapter Feeding the melting pot inclusive strategies for the multi ethnic city chapter A carrot isn t a carrot isn t a carrot tracing value in alternative practices of food exchange chapter Virtualizing the good life reworking narratives of agrarianism and the rural idyll in a computer game and chapter Workable utopias for social change through inclusion and empowerment Community supported agriculture CSA in Wales as social innovation are available open access under a Creative Commons Attribution 4 0 International license via link [springer com](https://www.springer.com)
