Abstract— Arabic Language is the mother tongue for 23 countries and more than 350 million persons. It is the language of the Holy Quran; therefore, many non-Arabic Islamic countries, like Pakistan, teach Arabic as a second language. Nevertheless, it is observable that the Arabic content on the Web is less than what should be. The evolution of the Semantic Web (SW) added a new dimension to this problem. This paper is an attempt to figure out the problem, its causes, and to open avenues to think about the solutions. The survey presented in this paper concerned with the SW applications regarding the Arabic Language in the domains of Ontology construction and utilization, Arabic WordNet (AWN) exploiting and enrichment, Arabic Named Entities Extraction, Holy Quran and Islamic Knowledge semantic representation, and Arabic Semantic Search Engines. In fact, the study revealed serious deficiencies in dealing semantically with the Arabic Language. That is mainly owing to the rarity of tools that can support the Arabic script. Furthermore, the Arabic resources, if available, are not free. Moreover, there are many technical problems in the semantic dealing with the Arabic context. Therefore, most of the developed applications are not sufficiently proficient. However, due to the significance of the Arabic Language, it is inevitable to overcome these deficiencies in order to put the Arabic Language in the category of the machine-semantically-interpretable languages, rather than just the textually-processable ones. This way, we can exploit the power of the Semantic Web features in extracting the essence of the knowledge residing in the Arabic web documents and going beyond dealing with its rigid texts.

Index Terms— Semantic Web (Web 3.0), Arabic Language, Islamic Knowledge, Named Entity Extraction (NEE), Semantic Search Engine (SSE)

I. INTRODUCTION

The term 'Semantic Web' was coined by Tim Berners-Lee, the inventor of the World Wide Web and the director of the World Wide Web Consortium ("W3C"), which oversees the development of proposed Semantic Web standards. Tim Berners-Lee defined the Semantic Web as "a web of data that can be processed directly and indirectly by machines." He originally expressed the vision of the Semantic Web as follows: "To a computer,

the Web is a flat, boring world devoid of meaning. A new form of Web content that is meaningful to computers will unleash a revolution of new possibilities. The Semantic Web (SW) is not a separate Web but rather an extension of the current one, in which information is given well-defined meaning. Adding semantics to the Web involves allowing documents which have information in machine-readable forms and allowing links to be created with relationship values" [1; 2]. SW, therefore, can enhance the currently existing Web by the interposition of a machine interpretable layer that holds the metadata of the Web document. This metadata will allow computer software to understand what the Web page is about, and thus draw conclusions about it. This revolutionary invention can be utilized by software agents, so the information can easily be found, shared, integrated, and exchanged [3; 4].

An expected contribution of the Semantic Web technology, if it becomes satisfactorily actuated over the World Wide Web, is to extremely enhance the extractability, exchangeability, and hence growth of knowledge on the Web regardless of its rationality, language and expression style. That can be achieved due to the utilization of a unified representation of the concepts in a standard machine interpretable language regardless of the native language of the user [5; 6; 7]. It is therefore vital for all natural languages, especially those that have a broad base of users, to be supported by the SW tools and applications. Among these natural languages is the Arabic Language. Besides that the Arabic is the language of a significant number of people; it is one of the strongest, richest and most languages able to articulate in the world. The SW, likewise, is the strongest technology that emerged in the field of Web till now. Thus, the integration of these two giants yields a capability that cannot be erudited.

This survey reviews the studies that addressed the Arabic Language and made efforts in order to support it in the environment of the SW. The reviewed studies were grouped thematically in four groups, each of which addressing an essential aspect of developing an Arabic SW application, which are the Arabic Ontologies development and utilization, the Arabic Named Entities Extraction (ANEE), the Islamic Knowledge Semantic

Arabic Language And Semantic Web Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Arabic Language And Semantic Web free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Arabic Language And Semantic Web free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that

offer free PDF downloads on a specific topic. While downloading Arabic Language And Semantic Web free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Arabic Language And Semantic Web. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Arabic Language And Semantic Web any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Arabic Language And Semantic Web Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Arabic Language And Semantic Web is one of the best book in our library for free trial. We provide copy of Arabic Language And Semantic Web in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Arabic Language And Semantic Web. Where to download Arabic Language And Semantic Web online for free? Are you looking for Arabic Language And Semantic Web PDF? This is definitely going to save you time and cash in something you should think about.
