Iran Walid Phares, 2023-01-10 Since 1979 the Khomeinist regime has oppressed its own population while waging wars and terrorism against Arabs Israel Middle East minorities and the United States It expanded its military power across the region and created an international terror web American policy toward Tehran since Carter culminated under Obama in offering the Islamic Republic a deal of partnership empowering the Ayatollahs even further The Iranian people rose several times against the regime without significant support from the US or the West Civil societies protested strongly against Iran backed militias in Iraq Syria Lebanon and Yemen but were likewise abandoned Instead US administrations and Congress were enticed into accepting the regime's legitimacy despite its rogue behavior and its relentless drive to obtain nuclear weapons and develop ballistic missiles This book tells the story of the regime from the genesis of its terror to the legitimizing of its aggressive goals It is about how America failed to stop the threat and how Americans can finally win that challenge once and for all

Electronic Iran Niki Akhavan, 2013-12-25 Electronic Iran introduces the concept of the Iranian Internet a framework that captures interlinked transnational networks of virtual and offline spaces Taking her cues from early Internet ethnographies that stress the importance of treating the Internet as both a site and product of cultural production accounts in media studies that highlight the continuities between old and new media and a range of works that have made critical interventions in the field of Iranian studies Niki Akhavan traces key developments and confronts conventional wisdom about digital media in general and contemporary Iranian culture and politics in particular Akhavan focuses largely on the years between 1998 and 2012 to

reveal a diverse and combative virtual landscape where both geographically and ideologically dispersed individuals and groups deployed Internet technologies to variously construct defend and challenge narratives of Iranian national identity society and politics While it tempers celebratory claims that have dominated assessments of the Iranian Internet Electronic Iran is ultimately optimistic in its outlook As it exposes and assesses overlooked aspects of the Iranian Internet the book sketches a more complete map of its dynamic landscape and suggests that the transformative powers of digital media can only be developed and understood if attention is paid to both the specificities of new technologies as well as the local and transnational contexts in which they appear Communalism from Indian Perspective Sarajit Kumar Chatterjee,2016-01-01

A pluralistic country like India has become the playground of communalism In spite of its vivisection on the basis of religion in 1947 India could not rather did not insulate itself from the virus of communalism There are many reasons for the growth and sustenance of communalism in free secular India Perhaps our Constitution is no less responsible for this The Framers of the Constitution might have wanted to usher in a true secular India but their obsession with communalism stood in the way They weighed everything from a communal angle As a result they incorporated several community specific provisions which benefited particular religious communities and at the same time shied away from incorporating those provisions in the Constitution which would have put a death nail to the coffin of communalism What is more ominous is that they never realised that their actions and non actions would give a fresh lease of life to communalism and that there would be polarisation of the communities on the basis of religion in post independent India as well **The Indian Mosaic** Bibek Debroy,D. Agius,2012-12-06 This book is a study of the seafaring communities of the Arabian Gulf and Oman in the past 150 years It analyses the significance of the dhow and how coastal communities interacted throughout their long tradition of seafaring In addition to archival material the work is based on extensive field research in which the voices of seamen were recorded in over 200 interviews The book provides an integrated study of dhow activity in the area concerned and examines the consciousness of belonging to the wider culture of the Indian ocean as it is expressed in boat building traditions navigational techniques crew organisation and port towns People of the Dhow brings together the different measures of time past the sea its people and their material culture The Arabian Gulf and Oman have traditionally shared a common destiny within the Western Indian Ocean The seasonal monsoonal winds were fundamental to the physical and human unities of the seafaring communities producing a way of life in harmony with the natural world a world which was abruptly changed with the discovery of oil What remains is memories of a seafaring past a history of traditions and customs recorded here in the recollections of a dying generation and in the rich artistic heritage of the region Persian and Arabic Literary Communities in the Seventeenth Century James White,2023-06-15 Shortlisted for the 2024 British Kuwait Friendship Society Book Prize A wealth of scholarship has highlighted how commercial political and religious networks expanded across the Arabian Sea during the seventeenth century as merchants from South Asia traded goods in the ports of Yemen noblemen from Safavid Iran established themselves in the courts of the Mughal Empire and scholars from across the region came together to debate the Islamic sciences in the Arabian Peninsula s holy cities of Mecca and Medina This book demonstrates that the globalising tendency of migration created worldly literary systems which linked Iran India and the Arabian Peninsula through the production and circulation of classicizing Arabic and Persian poetry By close reading over seventy unstudied manuscripts of seventeenth century Arabic and Persian poetry that have remained hidden on the shelves of libraries in India Iran Turkey and Europe the book examines how migrant poets adapted shared poetic forms imagery and rhetoric to engage with their interlocutors and create communities in the cities where they settled The book begins by reconstructing overarching patterns in the movement of over a thousand authors and the economic basis for their migration before focusing on six case studies of literary communities which each represent a different location in the circulatory system of the Arabian Sea In so doing the book demonstrates the plurality of seventeenth century aesthetic movements a diversity which later nationalisms purposefully simplified and misread Dare to Believe!
