Europe Meets America Gaia Caramellino, 2016-08-17 An analysis of the New York professional milieu between the Wall Street Crash of 1929 and the aftermath of WWII reveals an unexpected scenario in which diverse branches of technical culture and professional and institutional spheres often overlap and initiatives in the field of architecture are characterised by tensions between designers and technicians which pave the way for issues of architects autonomy responsibility and social roles in the New Deal From an initial portrayal of William Lescaze 1896 1969 as an unconventional figure straddling two continents this book challenges a long established interpretation that sees Lescaze exclusively as promoter of the International Style canons in the United States Moving beyond it this book focuses on the role that the Swiss architect played in defining the main features of New York social housing and in the evolution that marks the encounter between European modernity and an American federal scene still profoundly tied to local conventions From an initially difficult status as an migrant to his involvement in decisional processes and bureaucratic organisations Lescaze's professional progress coincides with the gradual acceptance of European forms and models which little by little became part of the institutional language related to public housing which would

remain prevalent in New York City until the end of WWII Drawing from yet unpublished archival sources pertaining to two fields housing and architecture which have traditionally been separate in American historiography this book sheds light on many crucial issues in a branch of architecture that is particularly relevant today **Women, Violence and Social Change** R. simple fact or fiction she interprets the text through Jungian methodology as a dream of the unconscious psyche of the Jewish people true in its reflection of their collective identity at the time of the text's composition The author merges Terrence Dawson's literary theory concerning the discernment of the effective protagonist of a narrative with Jungian's method of dream interpretation to analyze the text subjectively from the effective protagonist's point of view The author then extrapolates the book's contents onto a hypothetical historical situation to contextualize the book within the Jewish identity and uses her findings to conduct objective analysis
