Now that you have completed this turn-back reconciliation exercise, you are ready to perform the end of month posting procedure. The purpose of this end of month posting is to transfer the totals from the special journals to the appropriate general ledger accounts so that the balances of those ledger accounts reflect all of the transactions that occurred throughout that period.

Instructions for end-of month posting

1. Total the remaining columns in the special journals. Record the amount in the Total row of each journal.
2. Post the totals of the remaining columns in the special journals to their corresponding ledger accounts. To confirm that the posting has been performed, a posting reference is recorded in the last row of the special journals. If the total of a column is not required to be posted, you need to record an **N** in the post reference line for that column.
3. Record the first unadjusted balance of each ledger account in the Unadjusted Balance row of each ledger. Label the ledgers with a balance of zero, although each ledger starts with a running balance. The Unadjusted Balance row must not be filled out or used to receive full points.

If the Shoe Fits is the registered trading name of a women's shoe and boot retailer Nick Theobald is the proprietor and sole owner. The student is asked to prepare the financial statements for If the Shoe Fits using seven main journals: Sales, Sales Returns, Purchases, Purchase Returns, Cash Receipts, Cash Payments, and General Journal. The practice set is based on periodic inventory methods; however, an appendix at the back gives the lecturer the flexibility to also teach the perpetual method if required. The major advantage of teaching and learning with a manual practice set is that students will gain a genuine understanding of the underlying processes involved in preparing a set of financial statements. In a computerised setting, these processes occur in the background and typically are unseen by the user of the software.
