Ghrawi,2025-10-20 This book discusses popular contention in Saudi Arabia s Eastern Province until 1952 the governorate of al Ahsa under the aegis of petro capitalism The notion of urban revolution takes on a double meaning namely the rapid urbanisation which broke with the region s urban past and destroyed the oasis environment and merchant economy and the types of resistance and rebellious fervour that were triggered by the concentration of labour and industrial production in the new urban centres The book uses archival sources from the United States Great Britain and Saudi Arabia as well as accounts of Saudi oil workers activists and other contemporaries *Saudi Arabia 1975 - 2020* Anthony Axon,Susan Hewitt,2022-03-16

The fifth in the CAIW series this title reflects 50 years of experience of Cambridge UK based World of Information which since 1975 has followed the region s politics and economics In the period following the Second World War Saudi Arabia a curious fusion of medieval theocracy unruly dictatorship and extrovert wealth has been called a country of superlatives The modernisation of the Kingdom s oil industry has been a smooth process its oilfields are highly sophisticated However social modernisation has not kept pace Reform long a preoccupation among the Peninsula s leaders does not necessarily go hand in hand with religion **Construction Matters** Stefan Holzer,Silke Langenberg,Clemens Knobling,Orkun Kasap,2025-03-04

Construction History Construction Heritage Recent Construction Historiography Industrialization Engineering Sciences Building Materials Building Actors Construction History is still a fairly new and small but quickly evolving field The current trends in Construction History are well reflected in the papers of the present conference Construction History has strong roots in the historiography of the 19th century and the evolution of industrialization but the focus of our research field has meanwhile shifted notably to include more recent and also more distant histories as well This is reflected in these conference proceedings where 65 out of 148 contributed papers deal with the built heritage or building actors of the 20th or 21st century The conference also mirrors the wide spectrum of documentary and analytical approaches comprised within the discipline of Construction History Papers dealing with the technical and functional analysis of specific buildings or building types are complemented by other studies focusing on the lives and formation of building actors from laborers to architects

and engineers from economical aspects to social and political implications on legal aspects and the strong ties between the history of construction and the history of engineering sciences The conference integrates perfectly into the daily work at the Institute for Preservation and Construction History at ETH Zurich Its two chairs the Chair for Building Archaeology and Construction History and the Chair for Construction Heritage and Preservation endeavor to cover the entire field and to bridge the gaps between the different approaches methodologies and disciplines between various centuries as well as technologies learning together and from each other The proceedings of 8ICCH give a representative picture of the state of the art in the field and will serve as a reference point for future studies
