The Architectural Drawings of Magdalen College, Oxford

Roger White, 2001 The architectural drawings of Magdalen College Oxford number some thousand items and make up a collection unparalleled at any other Oxford or Cambridge college They span three centuries from the early eighteenth century to the present day and contain many beautiful contributions from some of the great names of English architecture including Nicholas Hawksmoor James Wyatt John Nash Humphry Repton A W N Pugin and leading members of the Scott dynasty This is the first comprehensive catalogue of the collection lavishly illustrated in both colour and black and white It

is prefaced by a detailed introductory essay by Roger White which sets the drawings in their context and provides an overview of the architectural evolution of this most famously picturesque of Oxford colleges. The catalogue has been compiled with the assistance of Robin Darwall Smith, Archivist, Magdalen College. *Floor Plan Manual Housing* Oliver Heckmann, Friederike Schneider, 2017-10-10. Revised edition of the reference work *The Floor Plan Manual Housing* has for decades been a seminal work in the field of architecture. In its 5th revised and expanded edition, approximately 160 international housing projects built after 1945 are documented and analyzed. The focus is on exemplary and transferrable projects and on innovative and trendsetting concepts. The systematic representation of all projects allows the reader to compare and evaluate various floor plans and to be inspired by the wealth of ideas and strategies for one's own design work. The introductory theoretical and historical essays have been newly written or updated and offer a structured overview of the residential housing typology and its development. Fifth revised edition with new projects and contributions. With upgraded visual appearance and a new key color. Access to the content is facilitated by various index functions. *Drafting House Plans* June Curran, 1990. A natural outgrowth of Curran's earlier book *Drawing house plans* containing much of the same basic information but also teaching you how to draw foundation plans, roof plans, sections and details. *Architect's Drawings* Kendra Schank Smith, 2006-08-11. The sketch is a window into the architect's mind. As creative designers, architects are interested in how other architects, particularly successful ones, think through the use of drawings to approach their work. Historically, designers have sought inspiration for their own work through an insight into the minds and workings of people they often regard as geniuses. This collection of sketches aims to provide this insight. Here for the first time, a wide range of world-famous architects' sketches from the Renaissance to the present day can be seen in a single volume. The sketches have been selected to represent the concepts or philosophies of the key movements in architecture in order to develop an overall picture of the role of the sketch in the development of architecture. The book illustrates the work of designers as diverse as Andrea Palladio, Erich Mendelsohn, Sir Edwin Lutyens, Gianlorenzo Bernini, Le Corbusier, Michelangelo, Alvar Aalto, Sir John Soane, Francesco Borromini, Walter Gropius, and contemporary architects Tadao Ando, Zaha Hadid, and Frank Gehry, to name but a few. Each chronologically placed sketch is accompanied by text providing details about the architect's life, a look at the sketch in context, and the connection to specific buildings where appropriate. Style, media, and meaning are also discussed, developing an explanation of the architect's thinking and intentions. As creative designers themselves, architects are interested in how other architects, particularly successful ones, think and draw and approach their work. Historically, designers have sought inspiration for their own work through an insight into the minds and workings of people they often regard as geniuses. This collection of sketches aims to provide this insight. Listed chronologically, each sketch will be accompanied by a text which provides a short synopsis, history of the architect's life, a look at the sketch in this context, the connection to a specific building, where appropriate, techniques of the sketch style and media, meaning, what the sketch shows about the
