Architecture For Humanity New York:

Architecture INTL Nancy Solomon, 2008-05-27 On the occasion of its 150th anniversary the American Institute of Architects asked more than 70 contributors to examine the complex and evolving of the America s architects in shaping our cities and communities Through essays vignettes and profiles illustrated with more than 560 photographs Architecture provides a look at the breath and depth of the architecture profession and points to the significant contributions architects have made in all aspects of society Most important the book demonstrates the value of applying architectural thinking to the many serious issues from global warming and homeland security to accessibility and diversity facing our world today BOOK JACKET Design/Build with Jersey Devil Charlie Hailey, 2016-07-19 Steve Badanes Jim Adamson and John Ringel believe an architect s job does not stop at designing a building but that it extends to constructing it as well Now working into their fifth decade Jersey Devil the loose knit group they founded in 1972 bands together under this design build ethos that an architect s place is just as much on the job site as it is at the drawing board The trio pioneered design build practice and their influence has spawned more than one hundred design build programs Jersey Devil s process and expertise are unpacked in this Architecture Brief providing students and teachers with a toolkit for design build education Through stories didactic commentary and sample exercises the Design Build complements nuts and bolts content with Jersey Devil s philosophy and perspective allowing the book to impart practical instruction while acting as a valuable guide for navigating the elusive challenges of design build Themes touch on socially responsible architecture intuition and intentionality detailing and fostering craftsmanship group work and collaboration off the shelf components and nonstandard applications educational reform ethos and risk good life and play the politics of building and university community relations **Post-Western**

Histories of Architecture Pilar Maria Guerrieri, Marco Biraghi, 2023-06-23 This book seeks to provide an alternative post Western perspective to the history of contemporary architecture It puts forward detailed critical analyses of various areas of the world including Europe Latin America Africa China Australia India and Japan where particular movements of architecture have developed as active political acts The authors focus on a broad spectrum of countries architectures and architects that have developed a design approach closely linked to the building context The concept of context is broad and includes various economic social cultural political and natural aspects In all cases the architects selected in this book have chosen to view context as an opportunity However each architect has considered certain specific aspects of context some have been very attentive to the social context others to material aspects or typological issues and still others to aspects related to political visions or economic factors The analysis critically highlights interesting creative and respectful design approaches towards local conditions such as sustainability in Nordic Europe climate conscious design in Africa and the bottom up sensitivity of India The book s main aim is to retrace through both theoretical arguments and case studies the debate that focuses on politics and the environment Thanks to its valuable examples this book strives to make a conscious contribution to

establishing a bulwark against the current flattening out processes that architecture is experiencing This book will be of relevance to researchers teachers and students interested in the history of architecture architecture and planning and postcolonial studies *The Routledge Companion for Architecture Design and Practice* Mitra Kanaani,Dak Kopec,2015-11-06 The Routledge Companion for Architecture Design and Practice provides an overview of established and emerging trends in architecture practice Contributions of the latest research from international experts examine external forces applied to the practice and discipline of architecture Each chapter contains up to date and relevant information about select aspects of architecture and the changes this information will have on the future of the profession The Companion contains thirty five chapters divided into seven parts Theoretical Stances Technology Sustainability Behaviorism Urbanism Professional Practice and Society Topics include Evidence Based Design Performativity Designing for Net Zero Energy The Substance of Light in Design Social Equity and Ethics for Sustainable Architecture Universal Design Design Psychology Architecture Branding and the Politics of Identity The Role of BIM in Green Architecture Public Health and the Design Process Affordable Housing Disaster Preparation and Mitigation Diversity and many more Each chapter follows the running theme of examining external forces applied to the practice and discipline of architecture in order to uncover the evolving theoretical tenets of what constitutes today s architectural profession and the tools that will be required of the future architect This book considers architecture s interdisciplinary nature and addresses its current and evolving perspectives related to social economic environmental technological and globalization trends These challenges are central to the future direction of architecture and as such this Companion will serve as an invaluable reference for undergraduate and postgraduate students existing practitioners and future architects *Housing as Intervention* Karen Kubey,2018-07-30 Across the world the housing crisis is escalating Mass migration to cities has led to rapid urbanisation on an unprecedented scale while the withdrawal of public funding from social housing provision in Western countries and widening income inequality have further compounded the situation In prosperous US and European cities middle and low income residents are being pushed out of housing markets increasingly dominated by luxury investors The average London tenant for example now pays an unaffordable 49 per cent of his or her pre tax income in rent Parts of the developing world and areas of forced migration are experiencing insufficient affordable housing stock coupled with rapidly shifting ways of life In response to this context forward thinking architects are taking the lead with a collaborative approach By partnering with allied fields working with residents developing new forms of housing and leveraging new funding systems and policies they are providing strategic leadership for what many consider to be our cities most pressing crisis Amidst growing economic and health disparities this issue of AD asks how housing projects and the design processes behind them might be interventions towards greater social equity and how collaborative work in housing might reposition the architectural profession at large Recommended by Fast Company as one of the best reads of 2018 and included in their list of 9 books designers should read in 2019 Contributors
