

Low-Level Programming

Because we use the same spa pack on the lowest configuration spa as we do on the most loaded up spa, Low-Level Programming is how we tell the spa pack what features are installed.

Access Low-Level Programming by pushing and holding the filter key (pump 5 on an Epic) until "LLP" shows up on the topside (about 10 seconds) then let go. Press the filter key to scroll forward through the menu, pump 3 to go backwards, and use the up/down arrows to change the value. The functionality is as follows:

Pa – Pump Number:

Pa – 1 = 1 pump installed
Pa – 2 = 2 pump installed
Pa – 3 = 3 pump installed
Pa – 5 = 5 pump installed

bL – Blowers:

bL – 0 = No Blowers installed*
bL – 1 = 1 Blower Installed (Superjet or Therapy Air)
bL – 2 = 2 Blowers installed (both SJ and TA installed)
*If the number of pumps is set to 5, this will automatically be zero and cannot be changed.

O3 – Ozone:

O3 – 0 = No ozone system installed
O3 – 1 = Peak I system installed
O3 – 2 = Peak II system installed

Oz – Ozon

Oz – 0 = No Ozon installed
Oz – 1 = Ozon is installed

FS – Filter Suspend

FS – 0 = Filter will not suspend if the temperature is over the set-point
FS – 1 = Filter will suspend if the temperature is more than 2oF above the set-point

IP – Internet Protocol*

IP-St = Set the spa's IP address to 169.254.3.3
IP-dy = Set the spa's IP address to be assigned dynamically by the router
*Power must be cycled to the spa if this setting is changed

Arctic Spa User Manual
