The New Domestic Automakers in the United States and Canada A.J. Jacobs, 2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th

Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide Lemon-Aid New and Used Cars and Trucks 2007-2018 Phil Edmonston, 2018-02-03 Steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car and truck book on the market Dr Phil along with George Iny and the Editors of the Automobile Protection Association pull no punches **Lemon-Aid New and Used Cars and Trucks 2007-2017** Phil Edmonston, 2017-03-11 Steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car and truck book on the market Dr Phil along with George Iny and the Editors of the Automobile Protection Association pull no punches **What we learn and when we learn it: sensitive periods in development** Etienne De Villers-Sidani, Virginia Penhune, 2014-11-21 The impact of training or experience is not the same at all points in development Children who receive music lessons or learn a second language before age 7 8 are more proficient as adults Early exposure to drugs or trauma makes people more likely to become addicted or depressed later life Rat pups exposed to specific frequencies from 9 13 days post partum show expanded cortical representations of these frequencies Young birds must hear and copy their native song within 1 2 months of birth or they may never learn it at all These are examples of sensitive periods developmental windows where maturation and specific experience interact to produce differential long term effects on the brain and behavior While still controversial evidence for the existence of sensitive periods has grown as has our understanding of the underlying mechanisms of brain plasticity Behavioral evidence from studies of language psychopathology or vision in humans has been complemented by evidence elucidating molecular gene and hormonal mechanisms in animals It has been proposed that sensitive periods can be both opened and closed by specific experience and that there are multiple overlapping sensitive periods that occur through out development as functions come on line It is also likely that experience dependent behavioral or brain plasticity accrued during one sensitive period can serve as a scaffold on which later experience and plasticity can build Based on current knowledge there are a number of broad questions and challenges to be addressed in this domain these include generating new information about the neurobiological mediators of structural and functional changes proposing models of brain development that will better predict when sensitive periods should occur and what functions are implicated investigation of the interaction between experience during a sensitive period

and pre existing individual differences and the relationship between experience during a sensitive period and on going experience The goal of this Research Topic is to bring together scientists in different fields whose work addresses these issues including animal and human developmental neuroscience language and cognitive development education developmental psychopathology and sensory neuroscience

Social Psychology of Consumer Behavior Michaela Wanke,2008-12-16 The Social Psychology of Consumer Behavior brings together the most promising and theoretically fruitful research developments by internationally renowned scholars whose work is at the cutting edge of research Experts from both fields social psychology and consumer behavior provide an informed up to date overview from an original integrative perspective The aim of this volume is two fold On the one hand the application of social psychology to consumer behavior is meant to broaden the horizon of social psychologists On the other hand students and researchers of consumer behavior will be offered an advanced account of relevant theories tailored to their interests While the range of topics is rather broad including the construal of judgments and decisions affective and cognitive feelings social and media influences and goals and self regulation each chapter is focused on one specific theoretical or methodological perspective and thereby gives a comprehensive and penetrative account of the relevant issues and the respective research The volume provides an invaluable resource to students researchers and instructors in social psychology consumer psychology consumer behavior and marketing
