Sell That Book M.L. Humphrey, 2022-04-04 So you wrote a book. Congratulations! Now if you're like a lot of us, you want to sell that book. You're ready to try to become a professional author. This book is meant to help you navigate that next stage of your writing career regardless of whether you want to find a publisher or self-publish. It will give you a high level discussion of what you need to start thinking about now regardless of the path you choose. A slightly different version of this book was previously published as *Achieve Writing Success*.

Sell More Books Webster Tsenase, 2018-11-14 Has your book sold less than 3000 copies? If so, then thank God you found this book because those sales are about to take off as a result of learning and applying what you will learn in this book. There are 4 pillars which are integral to your book's success and they are: 1. Marketing 2. Publicity 3. Distribution 4. Sales. Those pillars, when mastered, will lead to steady book sales every year until you die or until you stop using the techniques laid within this book. I first published my first book in 2011 and it didn't even sell a single copy. Then I published my second one and it sold some copies but just not enough, especially since I wrote that book for two years and worked very hard researching my topic and so forth. It sucked so much because I knew that the content of my book was brilliant and that it was about something that was and still is a very serious topic. Ever since then I have learned about how to really sell books directly and also digitally. I have learned about how to reach the right people who will actually buy your book and not make comments about it. I learned about how to handle my finances so that I can reinvest the money from book sales back into making more book sales. I have learned so much after publishing 4 books of mine and selling over 10,000 copies. That number sounds small and insignificant next to bigger ones, but trust me, it's not easy to sell that many books. But I have figured out what worked and what works for me, and I hope that it works for you too. Are you ready to give your book the chance to really be successful? Get my book, it's a short read and it's also very practical by asking you to do certain things which will help you to understand the material more. What more is there to say? Let's start selling more books.

How to Market a Book Ricardo Fayet, 2021-01-27 Writing a book is hard. Marketing it can be even harder. Marketing a book in 2023 can seem like a full-time job, what with the crazy number of things authors seem to be expected to do: social media, blog tours, advertising, price promotions, mailing lists, giveaways, you name it. But here's a little secret: you don't need to do all those things to successfully set your book on the path to success. What you need is a solid plan to find the one or two tactics that will work and start to drive sales in a minimum amount of time. And that's exactly what you'll find in this book. Instead of drowning you in information or inundating you with hundreds of different tactics and strategies that eventually prove fruitless, this book will guide you through a step-by-step framework to find the ones that actually work for you and your book so that you can start marketing more efficiently. In particular, you'll learn how to change your mindset and
