World slavery subordination and state sponsored surveillance and narratives of resistance liberation and intercultural exchange generated by transatlantic connectivities and the transnational transfer of ideas Contributors Lee M Jenkins Mark P Leone Katie Ahern Miranda Corcoran Ann Coughlan Kathryn H Deeley Adam Fracchia Mary Furlong Minkoff Tracy H Jenkins Dan O'Brien Eoin O'Callaghan Elizabeth Pruitt Benjamin A Skolnik and Stefan Woehlke **Published by the Author** Bryan Sinche, 2024-04-10 Publication is an act of power It brings a piece of writing to the public and identifies its author as a person with an intellect and a voice that matters Because nineteenth century Black Americans knew that publication could empower them and because they faced numerous challenges getting their writing into print or the literary market many published their own books and pamphlets in order to garner social political or economic rewards In doing so these authors nurtured a tradition of creativity and critique that has remained largely hidden from view Bryan Sinche surveys the hidden history of African American self publication and offers new ways to understand the significance of publication as a creative reformist and remunerative project Full of surprising turns Sinche's study is not simply a look at genre or a movement it is a fundamental reassessment of how print culture allowed Black ideas and stories to be disseminated to a wider reading public and enabled authors to retain financial and editorial control over their own narratives **Contraband Guides** Paul H. D. Kaplan, 2020-04-23 In his best selling travel memoir *The Innocents Abroad* Mark Twain punningly refers to the black man who introduces him to Venetian Renaissance painting as a contraband guide a term coined to describe fugitive slaves who assisted Union armies during the Civil War By means of this and similar case studies Paul H D Kaplan documents the ways in which American cultural encounters with Europe and its venerable artistic traditions influenced nineteenth century concepts of race in the United States Americans of the Civil War era were struck by the presence of people of color in European art and society and American artists and authors both black and white adapted and transformed European visual material to respond to the particular struggles over the identity of African Americans Taking up the work of both well and lesser known artists and writers such as the travel writings of Mark Twain and William Dean Howells the paintings of German American Emanuel Leutze the epistolary exchange between John Ruskin and Charles Eliot Norton newspaper essays written by Frederick Douglass and William J Wilson and the sculpture of freed slave Eugene Warburg Kaplan lays bare how racial attitudes expressed in mid nineteenth century American art were deeply inflected by European traditions By highlighting the contributions people of black African descent made to the fine arts in the United States during this period along with the ways in which they were represented *Contraband Guides* provides a fresh perspective on the theme of race in Civil War era American art It will appeal to art historians to specialists in African American studies and American studies and to general readers interested in American art and African American history **Exporting Reconstruction** Ryan P. Semmes, 2024-11-21 How Reconstruction era political battles reflected global struggles over the era's core ideals *Exporting Reconstruction* examines Ulysses S Grant's Reconstruction era policy both foreign and domestic as an integrated whole

Grant's vision for America's international role in the aftermath of the Civil War was best articulated in his 1869 memorandum considering whether the United States should annex the Dominican Republic. Grant envisioned a combined domestic and foreign policy of Reconstruction, one predicated on spreading the values of liberty, equality, and the rights of citizenship to not only the Dominican Republic but also other Caribbean nations as well as to Native Americans and Chinese immigrants living in the United States but seen as aliens within the nation. Author Ryan P. Semmes interprets the Grant era policy of Reconstruction as an all-encompassing agenda that imagined the United States as the arbiter of civil rights for the Western Hemisphere. *Exporting Reconstruction* shows readers that unlike presidents before and after his administration, Grant hoped to increase not only the United States's imperial reach but also extend freedom and liberty to people beyond the borders of North America.

Beyond Therapy Erving Polster, 2017-09-08 In *Beyond Therapy*, Erving Polster examines the role of life focus in three of society's most familiar activities: ordinary conversation, the arts, and religion. He shows the life focus movement to be an indivisible complement to just simply living. In proposing a paradigm shift from psychotherapy's priority for changing people's troubled lives into the complementary purpose of illuminating their lives, the author invites the participation of many people who do not seek remedial treatment for emotional or psychological problems. Polster incorporates a broader scenario for enhancing attention through community groups, showing that the convergence of people's minds on commonly important life themes creates enlightenment. This interlocked focus amplifies the ensuing conversational content and creates a meditation-like absorption. This kind of pointed focus, argues Polster, has the power to colour the lives of the participants. This work offers rationale and design for life focus community groups and also creates a heightened identity for the life focus movement, providing other foundational ideas that help to unify diverse approaches. Mental health professionals will benefit from its wealth of specific exercises and instructions for program design. Polster provides leaders and group members with a well-rounded perspective on the basics of personal enlightenment and communal belonging.

The book highlights the need for preparedness and vigilance but not paranoia, proposing ways in which American authorities and the citizens that they serve can greatly enhance terror awareness, preparedness, and prevention. *U.S. Domestic and Transnational Terrorism* serves as both an essential manual and a reference book for a wide variety of readers. Philosophy of Religion and the African American Experience John H. McClendon III, 2017-07-03 Most white philosophers of religion generally presume that philosophy of religion is based on what is a false universality whereby the white Western experience is paradigmatic of humanity at large The fact remains that Howard Thurman James H Cone and William R Jones among others have produced a substantial amount of theological work quite worthy of consideration by philosophers of religion Yet this corpus of thought is not reflected in the scholarly literature that constitutes the main body of philosophy of religion Neglect and ignorance of African American Studies is widespread in the academy By including chapters on Thurman Cone and Jones the present book functions as a corrective to this scholarly lacuna
