Children and the Politics of Culture Sharon Stephens,2021-02-09 The bodies and minds of children and the very space of children are under assault This is the message we receive from daily news headlines about violence sexual abuse exploitation and neglect of children and from a proliferation of books in recent years representing the domain of contemporary childhood as threatened invaded polluted and stolen by adults Through a series of essays that explore the global dimensions of children at risk an international group of researchers and policymakers discuss the notion of children s rights and in particular the claim that every child has a right to a cultural identity Explorations of children s situations in Japan Korea Singapore South Africa England Norway the United States Brazil and Germany reveal how children s everyday lives and futures are often the stakes in contemporary battles that adults wage over definitions of cultural identity and state cultural policies Throughout this volume the authors address the complex and often ambiguous implications of the concept of rights For example it may be used to defend indigenous children from radically assimilationist or even genocidal state policies but it may also be used to legitimate racist institutions A substantive introduction by the editor examines global political economic frameworks for the cultural debates affecting children and traces intriguing sometimes surprising threads throughout the papers In addition to the editor the contributors are Norma Field Marilyn Ivy Mary John Hae joang Cho Saya Shiraishi Vivienne Wee Pamela Reynolds Kathleen Hall Ruth Mandel Manuela Carneiro da Cunha and Njabulo Ndebele **Thorstein Veblen** Erik S. The aim of the conference was to consolidate Veblen scholarship and evaluate his relevance for the problems of today. This collection offers the results of that endeavour; it is a milestone of Vebleniana which assesses all the most salient aspects of his life and influence. Many of its contributors also push into uncharted territory, examining the man and his work from new and necessary perspectives hitherto ignored by scholarship.
