Global Perspectives on Decolonizing Postgraduate Education Gumbo, Mishack Thiza,Gaotlhobogwe, Michael,Pedzisai, Constantino,Jojo, Zingiswa Mybert Monica,Knaus, Christopher B.,2024-05-13 A deep seated issue persists in postgraduate education one that threatens the relevance of academia in our diverse and evolving world The problem at hand is the Western centric nature of postgraduate education where research paradigms methodologies and theoretical frameworks overwhelmingly reflect a Western worldview This rigid adherence to Western ideologies has left indigenous communities on the periphery of academic discourse denying them the opportunity to engage with their knowledge systems and practices Despite the richness and prevalence of indigenous knowledge the existing educational structure remains a barrier to their inclusion This disconnect is not only an academic concern but also a societal one as it hinders sustainable development and stifles the voices of indigenous scholars and students Global Perspectives on Decolonizing Postgraduate Education serves as a compelling solution to the problem at hand It offers a comprehensive roadmap to decolonize postgraduate education infusing it with indigenous approaches paradigms theories and methods Through critical examination and practical strategies this book empowers academics curriculum designers and postgraduate students to embark on a transformative journey

Matamanda,Verna Nel,2024-09-28 The main aim of this book is to understand the interplay between the SDGs and urban health This is a critical issue in cities considering the complexity of health issues and how they transcend most SDGs However the SDGs are premised on a broad set of generalised indicators and targets Simultaneously local contexts differ thus a one size fits all understanding of urban health problems is not helpful Therefore the SDGs require Health in All Policies HiAP an approach to public policy across sectors that systematically takes into account the health implications of decisions seeks synergies and avoids harmful health impacts to improve population health and health equity Ramirez Rubio et al 2019 In applying the HiAP concept this book adopts a case study approach and considers the poor neighborhoods of a South African city specifically Bloemfontein part of the Mangaung Metropolitan Municipality Each chapter presented in the book considers a particular SDG and how that goal relates to urban health

Leadership for change W.P. Wahl,René Pelser,2020-12-31 This edited volume reveals how the journey of transformation at the University of the Free State UFS became interwoven with student leadership development and global learning The UFS initiated two intersecting co curricular programmes namely the First Year Leadership for Change F1L4C programme in 2010 and the triennial Global Leadership Summit GLS in 2012 Although these programmes changed over time their core focus remained to be the development of transformational student leaders through the creation of global learning spaces From its inception in 2010 to the last GLS in 2018 the UFS global learning project involved 780 students and 259 staff

members from 109 institutions across four continents The goal of this edited volume is to create a deeper understanding of how the UFS F1L4C and GLS programmes enhanced student leadership development through global learning especially in the context of higher education transformation **Political Science in South Africa** Peter Vale, Pieter Fourie, 2016-01-13 In 2013 and in 2014 respectively the South African Association of Political Studies SAAPS and Politikon the South African Journal of Political Studies celebrate their 40th anniversary Also in April 2014 South Africa celebrates twenty years since the advent of the post Apartheid democracy and the birth of the rainbow nation This book provides a timely account of the birth and evolution of South African politics over the past four decades but also of the study of Political Science and International Relations in this country Fourteen political scientists contribute chapters to this volume situating the study of politics within its global context and recounting the development of politics as a field of study at South African universities The fourteen contributions evaluate the state of the discipline s and suggest conclusions that are surprising and in many instances unsettling not only with regards to what and how politics is taught but also how its study has variously gained and lost pertinence for South Africans understanding of their own polity as well as its place in the world The implications are uncomfortable and pose interesting challenges for South African scholarship pedagogy and national self reflection This book was published as a special issue of Politikon Environmental Health Perspectives ,2009-12 A Commentary on the Books of the Old and New Testament.
