The Workings of Monetary Policy through Trade Gustavo Adler,Ms.Carolina Osorio Buitron,2017-06-28 Monetary policy entails demand augmenting and demand diverting effects with its impact on the trade balance and spillovers to other countries depending on the relative magnitude of these opposing effects Using US data and a sign restricted structural VAR identification strategy we investigate how monetary policy shocks affects the trade balance shedding light on the importance of the two effects Overall the results indicate that monetary policy has a meaningful impact on the trade balance A monetary loosening tightening leads to a strengthening weakening of the overall trade balance indicating that on average demand diversion dominates This effect of monetary policy on trade is revealed in full when distinguishing between trading partners with fixed exchange rates for which only demand augmenting operates and flexible exchange rates for which both effects operate We also explore spillover differences between conventional and unconventional monetary policy as well as changes in spillovers in the postcrisis period due to an impaired monetary transmission mechanism While our results suggest that monetary policy comes with spillovers

through trade they should not be interpreted as evidence against the use of this policy instrument as such From a global perspective optimal monetary policy should be assessed in conjunction with deployment of other policy measures including the ability of recipient countries to deploy their own policy measures to offset undesirable spillovers ISTED 2021 Malim Muhammad,Nisrina Nurhaliza,Bella Allivia Sativa Turmono,2021-10-04 The International Seminar on Teacher Training and Education 2021 ISTED 2021 is an international seminar devoted to fostering the development of innovative education in 21st century The goal of ISTED seminar is to provide a forum for lectures teachers students experts and practitioners from universities governments NGOs and research institutes and to share cutting edge developments in educations and social humanities It also offers an opportunity to deepen understanding of the connection between information and study related to technologies educations and social humanities The conference will consist of a plenary of keynote and paper presentation We invite you to participate and submit your paper through online system The approved paper will be presented and published in EAI Book Chapter of ISTED 2021 and Journals related topics at this conference
