Head, 2021-08-11 For nation states the contexts for developing and implementing policy have become more complex and demanding Yet policy studies have not fully responded to the challenges and opportunities represented by these developments Governance literature has drawn attention to a globalising and network based policy world but politics and the role of the state have been de emphasised This book addresses this imbalance by reconsidering traditional policy analytic concepts and re developing and extending new ones in a melded approach defined as systemic institutionalism This links policy with governance and the state and suggests how real world issues might be substantively addressed
