She and Giles need a circuit breaker, and one steamy summer night together might be just what they both need. But is one night enough? 19,000 words *Serendipity Series Gr. 3-5*, [The Tipping Point](#)

Processing Creativity Jesse Cannon, 2017-03-28 For decades Jesse Cannon has been pushing creative ideas in music. You may know him from writing one of the most popular books on the music business, *Get More Fans*, or from his recording credits on records with the most varied set of bands you've ever seen, including The Cure, The Misfits, Animal Collective, Brand New, The Dillinger Escape Plan, The Menzingers, Limp Bizkit, Basement Jaxx, Leftover Crack, Saves The Day, Senses Fail, Weir, Al Yankovich, Lifetime, Say Anything, NOFX, Flatsound, Man Overboard, Bad Books, Transit, Somos, Cavetown, and over a thousand others. You may also know his work as the host of the podcasts *Atlantic Records Inside The Album*, *Noise Creators*, and *Off The Record*, his popular YouTube channel *Musformation*, as a producer for popular podcasts at Rolling Stone, helping musicians fulfill their creative vision. The book is the culmination of four years of poring over scientific studies, books, and thoughts from top creators, as well as his own experience, to write a book every musician should listen to about what goes into making great music versus what bands do when they make the innumerable bad songs we hear each day. Covering the pitfalls of creating music, the book thoroughly explores the hidden reasons we actually like music, how to get along with our collaborators, and patterns that help creativity flourish. While every musician says that being creative is the most important part of their life, they barely explore what's holding them back from making music they are happy with. When trying to navigate the ways our creative endeavors fail, there's no YouTube tutorial, listicle, or college course that can help navigate the

countless creative pitfalls that can ruin your music but after reading this book you will have the knowledge to guide you to make songs the world loves The essential ideas on creating music are detailed in a simple fun language that s littered with quotes and insight from the most innovative creators of our time including How to make highly emotional music that compels listeners to listen again and again Effectively dealing with collaborative problems like too many chefs in the kitchen giving helpful criticism or dealing with stubborn collaborators Finding inspiration when you have writer s block How to draft your songs while avoiding the common pitfalls of losing perspective and giving up Examining the unexpected reasons we enjoy music Calming your thoughts so they don t sabotage your music and other helpful tools to help execute your music as best as possible
