Centers and Peripheries in Romance Language Literatures in the Americas and Africa, 2024-01-15 What is center and periphery How can centers and peripheries be recognized by their ontological and axiological features How does the axiological saturation of a literary field condition aesthetics How did these factors transform center periphery relationships to the former metropolises of Romance literatures of the Americas and Africa What are the consequences of various deperipheralization contexts and processes for poetics Using theoretical sections and case studies this book surveys and investigates the limits of globalization Through explorations of the intercultural dynamics the aesthetic contributions of former peripheries are examined in terms of the transformative nature of peripheries on centralities **Less Translated Languages** Albert Branchadell, Lovell Margaret West, 2005 This is the first collection of articles devoted entirely to less translated languages a term that brings together well known widely used languages such as Arabic or Chinese and long neglected minority languages with power as the key word at play It starts with some views on English the dominant language in Translation as elsewhere considers the role of translation for minority languages both a source of inequality and a means to overcome it takes a look at translation from less translated major languages and cultures and ends up with a closer look at translation into Catalan a paradigmatic case of less translated language in a final section that includes a vindication of six prominent Catalan translators Combining sound theoretical insight and accurate analysis of relevant case studies the contributors to this collection make a convincing case for a more thorough examination of less translated languages within the field of Translation Studies *Francophone Sub-Saharan African Literature in Global Contexts* Alain Mabankou, Dominic Richard David Thomas, 2011 The work of polymath Jean Francois Lyotard has proved seminal in the best sense of the word original and historical both fundamental and far reaching neither partisan nor exclusive This retrospective volume deals with the extraordinary breadth of Lyotard's thought and his wide ranging impact on critical thinking in the late twentieth century Book Jacket **John Bull**, 1820 *The Critic*, 1851
