Allegory Of The Cave Text:

Philosophical Interpretations Robert J. Fogelin, 1992-01-30 Robert Fogelin here collects fifteen of his essays organized around the theme of interpreting philosophical texts. The essays place particular emphasis on understanding the argumentative or dialectical role that passages play in the specific context in which they occur. The somewhat surprising result of taking this principle seriously is that certain traditional well worked texts are given a radical re interpretation. Throughout the essays reprinted here Fogelin argues that when carefully read the philosophical position under consideration has more merit than commonly believed. Included are essays dealing with texts from the works of Plato Aquinas Hume Berkeley Kant Price Hamilton and Wittgenstein.

Illness as Narrative Ann Jurečič, 2012-03-12 For most of literary history personal confessions about illness were considered too intimate to share publicly. By the mid twentieth century however a series of events set the stage for the emergence of the illness narrative. The increase of chronic disease the transformation of medicine into big business the women's health movement the AIDS HIV pandemic the advent of inexpensive paperbacks and the rise of self publishing all contributed to the proliferation of narratives about encounters with medicine and mortality. While the illness narrative is now a staple of the publishing industry the genre itself has posed a problem for literary studies. What is the role of criticism in relation to personal accounts of suffering? Can these narratives be judged on aesthetic grounds? Are they a collective expression of the lost intimacy of the patient doctor relationship? Is their function thus instrumental to elicit the reader's empathy? To answer these questions Ann Jurecic turns to major works on pain and suffering by Susan Sontag Elaine Scarry and Eve Sedgwick and reads these alongside illness narratives by Jean Dominique Bauby Reynolds Price and Anne Fadiman among others. In the process she defines the subgenres of risk and pain narratives and explores a range of critical responses guided alternately by narrative empathy the hermeneutics of suspicion and the practice of reparative reading. *Illness as Narrative* seeks to draw wider attention to this form of life writing and to argue for new approaches to both literary criticism and teaching narrative. Jurecic calls for a practice that's both compassionate and critical. She asks that we consider why writers compose stories of illness how readers receive them and how both use these narratives to make meaning of human fragility and mortality.

Paul the Allegorist Andrew C. Burrow, 2024-09-19 In a moment of great crisis the apostle Paul gave new meanings to characters and events within Genesis 16 21 without completely denying or replacing their prior meanings This interpretive practice as found in Galatians 4 21 31 has troubled interpreters of Scripture since the fourth century This book demonstrates that Paul's practice was allegorical and provides a more precise understanding of his practice by comparing Paul with three roughly contemporary interpreters of Scripture the sectarian interpreters of texts in the Dead Sea Scrolls the interpreter Philo and the author of the Epistle of Barnabas This book identifies Paul's interpretive work explains how he used his allegorical practice to accomplish it and reveals the implications of this practice for understanding him as an interpreter of Scripture It helps resolve a debate ongoing for nearly two millennia by answering the questions What does Paul do in Galatians 4 21 31 and why does it matter

Being and Truth Martin Heidegger, 2021-12-22 A well crafted and careful rendering of an important and demanding volume covering the philosopher's views on language life and politics Andrew Mitchell Emory University In these lectures delivered in 1933 1934 while he was Rector of the University of Freiburg and an active supporter of the National Socialist regime Martin Heidegger addresses the history of metaphysics and the notion of truth from Heraclitus to Hegel First published in German in 2001 these two lecture courses offer a sustained encounter with Heidegger's thinking during a period when he attempted to give expression to his highest ambitions for a philosophy engaged with politics and the world While the lectures are strongly nationalistic they also attack theories of racial supremacy in an attempt to stake out a distinctively Heideggerian understanding of what it means to be a people This careful translation offers valuable insight into Heidegger's views on language truth animality and life as well as his political thought and activity

Rewriting Difference Elena Tzelepis, Athena Athanasiou, 2012-02-01 In this definitive reader prominent scholars reflect on how Luce Irigaray reads the classic discourse of Western metaphysics and also how she is read within and against this discourse Her return to the Greeks through strategies of deconstructing demythifying reconstructing and remythifying is not a nostalgic return to the ideality of Hellenocentric antiquity but rather an affirmatively critical revisiting of this ideality Her persistent return and affective bond to ancient Greek logos mythos and tragedy sheds light on some of the most complex epistemological issues in contemporary theory such as the workings of criticism the language of politics and

the politics of language the possibility of social and symbolic transformation the multiple mediations between metropolitan and postcolonial contexts of theory and practice the question of the other and the function of the feminine in Western metaphysics With a foreword by Gayatri Chakravorty Spivak and a chapter by Irigaray responding to her commentators this book is an essential text for those in social theory comparative literature or classics **Phenomenology/Ontopoiesis**

Le Guin's The Dispossessed* Laurence Davis, Peter G. Stillman, 2005-01-01 The Dispossessed has been described by political thinker Andre Gorz as The most striking description I know of the seductions and snares of self managed communist or in other words anarchist society To date however the radical social cultural and political ramifications of Le Guin's multiple award winning novel remain woefully under explored Editors Laurence Davis and Peter Stillman right this state of affairs in the first ever collection of original essays devoted to Le Guin's novel Among the topics covered in this wide ranging international and interdisciplinary collection are the anarchist ecological post consumerist temporal revolutionary and open ended utopian politics of The Dispossessed The book concludes with an essay by Le Guin written specially for this volume in which she reassesses the novel in light of the development of her own thinking over the past 30 years *Heidegger on Truth and Myth* Hayim Gordon, Rivca Gordon, 2006 Truth and myth are predominant themes in Martin Heidegger's thinking Heidegger showed that ancient Greek understanding of truth as aletheia unconcealment can teach us about learning from the wisdom that is found in myths and can also enhance human existence This book describes some of Heidegger's major insights concerning truth as aletheia and their implications It also shows how Heidegger's thinking on truth discloses the shallowness and the disrespect for truth in the writings of four well known postmodernist writers Lyotard MacIntyre Rorty and Derrida
