Anatomy Trains Thomas W. Myers, 2020-06-03 **Anatomy Trains 4th Ed. Posters - LARGE** Thomas Myers, 2020 This series of 8 large posters completely redesigned to align with the fourth edition of Thomas Myers classic Anatomy Trains are an essential visual reference to all 12 myofascial meridians laid out in Tom s book They include artwork from the prominent British anatomical artists Philip Wilson and Deborah Maizels whose previous work was with the latest edition of Gray s Anatomy Measuring 15 5 by 24 inches these coated posters are a valuable addition to the walls of manual and movement therapists studios for refreshing your memory about connected anatomy or to show clients why work in one area will be effective in another Poster set includes 1 handsome cover image taken from the 4th edition of Anatomy Trains and 7 posters representing all 12 myofascial meridians Shipped in a crush proof mailing tube

Mobilizing the Myofascial System Doreen Killens, 2018-10-01 Fascia has become the new buzzword in the field of rehabilitation and movement re education Until recently its contribution to musculoskeletal dysfunction had been underestimated We know now that fascia plays an important role in health wellbeing and mobility It transmits the power of the muscles communicates with the nervous system and serves as a sense organ Many different groups of professionals are now exploring the world of fascia as evidenced by the explosion of research in this field However many physical therapists are still unfamiliar with fascia and continue to think of it as the dead packing material that is pushed aside during dissections in order to visualize the important stuff like muscles and nerves Physical therapists with their varied skill set in manual therapy techniques are well placed to take on this important tissue Mobilization of the Myofascial System aims to help them

to do that Mobilization of the Myofascial System MMS the technique described in this book has its origins in manual physical therapy for the articular muscular and neural systems Tom Myers book Anatomy Trains which examines the myofascial meridians for manual and movement therapists has been the framework and inspiration for the development of MMS In this book the author outlines the theory and pathophysiology of fascial dysfunctions A full description of the MMS assessment and treatment approach is given as well as guidance on ways in which it may be integrated into the other methods normally used by manual therapists Subsequent chapters offer full descriptions and color photos of the MMS techniques The chapters are organized into various anatomical regions simply to facilitate learning These divisions are of course artificial as fascia is a continuum from the top of the head down to the toes Mobilization of the Myofascial System is primarily intended for physical therapists who have been trained in manual therapy but it will also be valuable for osteopaths chiropractors massage therapists structural integrators and other body workers who are seeking an alternative way to work with this important and fascinating tissue

Anatomy Trains Thomas W. Myers (LMT), 2019 The Myofascial System in Form and Movement Lauri Nemetz, 2022-12-21

The field of myofascial science is changing rapidly In The Myofascial System in Form and Movement Lauri Nemetz invites readers into the rich dialogue around movement delving into anatomy concepts of space and the many other disciplines that are taking interest in the myofascial universe Nemetz uses insights from our spatial relationship with the world to examine the human body giving voice to the ideas and work of leaders in this area and prompting readers to develop their own ideas as well as offering application suggestions to discover in your own body or with others With an extensive background in art history myofascial movement anatomical dissection and more Nemetz uses her wealth of experience to weave together the many facets of this evolving area in a visually rich and thought provoking book

Anatomy Trains in Motion Thomas Myers, Karin Gurtner, 2019-09-18
