Perone, 2016-10-17 We are what we listen to That s the premise of this study of 100 songs that have shaped and defined the American experience from the Colonial period to the present Well known music author James Perone looks at 100 songs that helped tell America s story He examines why each song became a hit what cultural and social values it embodies what issues it touches upon what audiences it attracted and what made it such a definitive part of American history and popular culture The chart topping singles presented here crossed gender age race and class lines to appeal to the mass American audience The book discusses patriotic songs minstrel music and sacred songs and hymns as well as music in the broad categories of pop rock hip hop jazz country and folk An introduction provides an overview of the history and significant issues raised by the songs as a whole Individual songs are then presented chronologically based on when they were written The revealing commentary for each hit is not only interesting and fun but reveals what it was like to live in the United States at a particular time by unveiling the social economic and political issues as well as the musical tastes that made life what it was **The Rock Canon** Carys Wyn Jones, 2017-07-05 Canons are central to our understanding of our culture and yet in the last thirty years there has been much conflict and uncertainty created by the idea of the canon In essence the canon comprises the works and artists that are widely accepted to be the greatest in their field Yet such an apparently simple construct embodies a complicated web of values and mechanisms Canons are also inherently elitist however Carys Wyn Jones here explores the emerging reflections of values terms and mechanisms from the canons of Western literature and classical music in the reception of rock music Jones examines the concept of the canon as theorized by scholars in the fields of literary criticism and musicology before moving on to search for these canonical facets in the reception of rock music as represented by ten albums Bob Dylan s Highway 61 Revisited The Beach Boys Pet Sounds The Beatles Revolver The Velvet Underground s The Velvet Underground Nico Van Morrison s Astral Weeks Marvin Gaye s What s Going On The Rolling Stones Exile on Main St Patti Smith s Horses The Sex Pistols Never Mind the Bollocks Here s the Sex Pistols and Nirvana s Nevermind Jones concludes that in the reception of rock music we are not only trying to organize the past but also mediate the present and any canon of rock music must now

negotiate a far more pluralized culture and possibly accept a greater degree of change than has been evident in the canons of literature and classical music in the last two centuries The 100 Greatest Bands of All Time David V.
