Comics and Archaeology

Zena Kamash,Katy Soar,Leen Van Broeck,2022-10-06 This book adds to the scant academic literature investigating how comics transmit knowledge of the past and how this refraction of the past shapes our understanding of society and politics in sometimes damaging ways The volume comes at these questions from a specifically archaeological perspective foregrounding the representation and narrative use of material cultures It fulfils its objectives through three reception studies in the first part of the volume and three chapters by comic creators in the second part All six chapters aim to grapple with a set of central questions about the power inherent in drawn images of various kinds Doing History Linda S. Levstik,Keith C. Barton,2015-01-30 Now in its fifth edition Doing History offers a unique perspective on teaching and learning history in the elementary and middle grades Through case studies of teachers and students in diverse classrooms and from diverse backgrounds it shows children engaging in authentic historical investigations often in the context of an integrated social studies curriculum The premise is that children can engage in valid forms of historical inquiry collecting and analyzing data examining the perspectives of people in the past considering multiple interpretations and creating evidence based historical accounts Grounded in contemporary sociocultural theory and research the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature art writing discussion and debate The authors explain how the teaching demonstrated in the vignettes reflects basic principles of contemporary learning theory Doing History emphasizes diversity of perspectives in two ways readers encounter students from a variety of backgrounds and students themselves look at history from multiple perspectives It provides clear guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children s learning **The Origins of Civilization** Zachary Anderson,2015-07-15 Discover the peoples and cultures from the Stone Age two million years ago through the Egyptians and Babylonians *World Religions in America, Fourth Edition* Jacob Neusner,2009-10-07 The fourth edition of World Religions in America continues its lauded tradition of providing students with reliable and nuanced information about America s religious diversity while also reflecting new developments and ideas Each chapter was updated to reflect important changes and events and current statistics and information New features include a timeline of key events and people for each tradition sidebars on major movements or controversies personal stories from members of various faiths a theme based organization of subjects more subheads three new chapters exploring America s increasing religious diversity and suggestions for further study **Historical Sketch of the Boston Society of Natural History, with a Notice of the Linnaean Society, which Preceded it** Thomas Tracy Bouvé,1880 *The Heritage of World Civilizations* Albert M. Ybarra, 2008-07-31 School textbooks in Iran Saudi Arabia Egypt and elsewhere in the Arab and Muslim worlds are filled with anti Western and anti Israel propaganda Most readers will be shocked to discover that history and geography textbooks widely used in America's elementary and secondary classrooms contain some of the very same inaccuracies about Jews Judaism and Israel Did you know that there is no record of any important Jewish contribution to the sciences World Civilizations Thomson Wadsworth Or that Christianity was started by a young Palestinian named Jesus The World Scott Foresman Pearson Supplemental materials and other classroom influences are even worse The Trouble with Textbooks exposes the poor scholarship and untruths in textbooks about Jews and Israel The problems uncovered in this ground breaking analysis are instructive and illustrate the need for reform in the way textbooks are developed written marketed and distributed Substitute another area how we teach American history Western civilization or comparative religion and we have another equally intriguing case study The Trouble with Textbooks shows what can go terribly wrong in discussing religion geography culture or history and in this case all of them The Trouble with Textbooks tells a cautionary tale for all readers whatever their background of how textbooks that Americans depend on to infuse young people with the values for good citizenship and to help acculturate students into the multicultural salad that is American life instead disparage some groups and teach historical distortions With millions of young people using these textbooks each year the denigration of some should be a concern for all **Pacific Southwest Water Plan** United States.
