With these words, Dan sets out on the hunt for the key to save humanity. He finds himself catapulted from his bleak everyday life into the future of WeYou, where humanity, the We, is fighting for survival. Meanwhile, in the virtual Real World, a place of unlimited possibilities, life revolves around individual happiness. The You, Dan discovers, the disasters and imponderables that lie ahead, but also the possibilities AI, genetic engineering, quantum computers, or robots offer for the future. The knowledge to solve the greatest challenges of our time already exists; we just need to use it properly. But is there enough time for Dan to rewrite the history of our future?
