The Sound of Exclusion Christopher Chávez, 2021-12-21 In *The Sound of Exclusion* Christopher Chávez critically examines National Public Radio's professional norms and practices that situate white listeners at the center while relegating Latinx listeners to the periphery. By interrogating industry practices we might begin to reimagine NPR as a public good that serves the broad and diverse spectrum of the American public.

This massive visually exhilarating celebration in hardcover provides a front row seat to the Boston Bad Boys' entire career: scrapping their way cross country in the 1970s, scrapping their way back to the top of the heap in the late 1980s, and scrapping with each other the entire way. Updated with 16 additional pages of text and photographs, this complete history of one of the world's most successful and popular bands features a lively and honest band history by music journalist Richard Bienstock; sidebar album reviews from a host of well-known music journalists including Greg Kot, Jaan Uhelszki, Chuck Eddy, Bill Holdship, Martin Popoff, Daniel Bukszpan, and more; nearly 400 photos of the band on and off the stage and images of rare memorabilia including gig posters, backstage passes, ticket stubs, 7-inch picture sleeves, and more; advice from Steven Tyler and Joe Perry to young bands; a survey and discussion of the guitars employed by Joe Perry and Brad Whitford over their 50 years in and out of Aerosmith; an Aerosmith discography encompassing all official audio and video releases; *Aerosmith: The Ultimate Illustrated 50 Year History of the Boston Bad Boys* is an awesome must-have add to the library of every Aerosmith fan.

Media and Social Inequality John Pollock, 2014-06-11 This book is among the first to systematically explore the impact of community inequality on reporting political and social change. Although most journalism scholars are still fascinated by the impact of media on society, *Media and Social Inequality* explores the reverse perspective: the impact of society on media. Using a community structure approach and rejecting the perspective that studies of media and audiences can be reduced to the individual level of psychological phenomena, all contributions examine connections between community-level macro characteristics and variations in the coverage of critical issues. This innovative book differs from previous community structure volumes in two ways. First, contributions explore a far wider range of community characteristics by employing creative methodologies, modern archives, and databases that facilitate larger, more diverse samples, multilevel and longitudinal analyses, composite measures of both content and editorial judgment, new technologies, and social network analysis. Second, a traditional emphasis on media as instruments of political and social control is replaced by media as potential mirrors of social change, exploring bottom-up measures of vulnerability, concentrated disadvantage, and ethnic diversity/pluralism. The volume contains two original chapters: one on nationwide US coverage of the Occupy movement in the expanded introduction and another on nationwide US coverage of universal health
