Bullying in Schools

What seems fun and harmless for some students, is painful and degrading to others. Bullying has been a critical issue around schools, but before it was not as dangerous and know as it is now. These do not means bullying was not happening, it means it was not taken into consideration by parents or teachers. They thought it was just peer pressure or a kids game, and sooner or later the kids would be friends again. At one point, bullies think it's normal to be mean and abusive to other students. They tell the victim, "I'm just messing with you" after aggression. On the other hand, the victim gives power to the bully by not speaking up and being afraid. Bullying can be avoid if the victim speaks up and seeks help from a teacher, parent, the principal, or a friend

By knowing the cause and effect of bullying, students can identify it and immediately report it. Students are sometimes afraid to report incidents of bullying, because they are afraid of consequences like dislike and increased conflict with the bully. To prevent this fear, students should be encouraged to speak to an adult without any hesitation

Bullying Can Be Prevented Bullying is a form of violence to pick on victims because they are different from their bullies, have insecurity/jealousy or home problems. The hate towards their victim has something to do with the victim having an unusual gift or being intelligent the bullies has yet to become. It is important that this behavior should be prevented or it will become worse. Bullying is one of the main issues public and private schools have to face on a day-to-day basis. When the bully takes it too far, the victim snaps and retaliates by fighting him/her back physically or verbally.
