Digital Activism in Zimbabwe Tenford Chitanana, 2024-10-21 This book investigates the role of the internet and social media in political processes in non-western and non-democratic contexts Using Zimbabwe as a case study the book demonstrates how activists and ordinary people deploy social media particularly Facebook to subvert an enduring hegemonic state However the book also highlights how authoritarian regimes are in turn learning and adapting to the information age challenging the impact of digital activism Studies of digital activism in the Global South are often centred around democracy but this book paints a more complex picture examining the role and effect of digital activism in challenging state hegemony in authoritarian contexts The book notes that while communication technologies help mediate activism they are also simultaneously constrained by pre-existing and emergent challenges tied to the social and political context and the inherent limitations of those technologies The book investigates the tactics used by digital activists the contextual factors and restrictive political environment they operate in including the role of pro-government activists and ultimately the impact of digital activism given these constraints From the case of Zimbabwe the book builds out a broader theoretical analysis of the evolution of third world protest in the digital age examining the limitations of activists' actions and the ideological deficit in online activism to ferment a virulent counter-hegemony

Peace and Conflict in Africa David Francis, 2013-04-04 Nowhere in the world is the demand for peace more prominent and challenging than in Africa From state collapse and anarchy in Somalia to protracted wars and rampant corruption in the Congo from bloody civil wars and extreme poverty in Sierra Leone to humanitarian crisis and authoritarianism in Sudan the continent is the focus of growing political and media attention This book presents the first comprehensive overview of conflict and peace across the continent Bringing together a range of leading academics from Africa and beyond Peace and

Conflict in Africa is an ideal introduction to key themes of conflict resolution peacebuilding security and development The book s stress on the importance of indigenous Africa approaches to creating peace makes it an innovative and exciting intervention in the field Local Knowledge for a Globalized World (Penerbit USM) Norizan Esa,Salasiah Che Lah, Local knowledge refers to knowledge and expertise which originate from local and indigenous cultures that have developed over time Its practices have been absorbed naturally and effortlessly into the local communities However due to globalization and modernization much of this knowledge has not been practiced and will be lost in time if efforts are not taken to preserve conserve and transfer it to the community Through the discussion of six articles written based on local and international research findings this book brings together researchers committed to local knowledge in sharing the process of documentation on local knowledge transfer issues and challenges and the methodology of knowledge transfer Thus new ideas are presented to promote the practice of preserving and conserving local knowledge to the practitioners students and communities *Advances in GIS and Remote Sensing the Landscape Pattern of Land Cover on Urban Climate and Urban Ecology* Pedzisai Kowe,Cletah Shoko,Steven Jerie,2023-11-24 The rapid urban expansion and associated land cover conversions in the last two decades call for an urgent need for developing advanced analytical and quantitative methods to manage the adverse impacts on urban ecology and climate The lower landscape connectivity higher land cover fragmentation and increase in higher surface temperatures in urban areas are largely a consequence of surface energy balance alteration triggered by the replacement of natural land covers like green spaces wetlands with built areas and impervious surfaces These spatial temporal variability changes have detrimental and significant impacts on the local and regional urban climate challenges that require both new Geospatial Analytic approaches and new sources of data and information Emerging Geospatial technologies Big Data Cloud Computing Google Earth Engines Advanced Machine Learning Algorithms and Deep learning offer great opportunities to acquire ubiquitous spatial data continuous observations and monitoring of the earth s surface detect the spatiotemporal patterns of changes in the landscape and urban climate and make predictions and scenarios for future urban ecology and surface temperature trends The Rhodesia Science News ,1974 *The Zimbabwe Science News* ,1998 **Zimbabwe's Trajectory** V. Masunungure,2020-11-11 At Independence in 1980 Julius Nyerere called Zimbabwe the jewel of Africa and cautioned its new leaders not to tarnish it Tragically they paid no heed to Africa s esteemed elder statesmen Arguably and only if one ignores the carnage of Gukurahundi the first decade was a developmental one with resources being used prudently to benefit the formerly disadvantaged majority population However the 1990s witnessed a transition from a developmental to a predatory leadership which saw Zimbabwe cross the millennial line in crisis where it has remained ever since While many African countries have moved forward over the last three decades Zimbabwe has gone relentlessly backwards save for the four year interregnum of the tripartite coalition government 2009 2013 Virtually all development indicators point in the wrong direction and the crisis of poverty unemployment and the erosion of

health education and other public goods continues unabated The imperatives of political survival and power politics supersede those of sound economics and public welfare Moreover unless good politics are conjoined with a sound people first policy the country will continue sliding downhill Zimbabwe s Trajectory tells the story of the country s post independence dynamics and its recent descent into becoming one of the three most unhappy countries in the world [Zimbabwe Research Index](#) ,1980 Register of current research in Zimbabwe [Zimbabwe since the Unity Government](#) Stephen Chan,Ranka Primorac,2013-09-13 Zimbabwe has moved from a condition of restricted expression to one of many contradictory expressions Politics has lost none of its compromises and conflicts but it has been amplified by an explosion of voices For the first time a genuine debate is possible among many actors insiders and outsiders and the question marks over Zimbabwe and its future are no longer in terms of a narrow choice between one party and another one outlook or another Compromise government has meant complexity of debate This does not preclude disillusionment within debate but it does include vigour and imagination in debate This book includes essays from renowned scholars governmental and diplomatic figures and prioritises contributions by Zimbabweans themselves The essays provide a blend of academic and practitioner observation and judgement which no other volume has done This book was published as a special issue of The Round Table
