Superintendent of Documents, 1963 **Geological Survey Water-supply Paper** ,1961 *Schoolhouse Shams* Peter Downs, 2013 Written by a parent and school board member who first embraced many of the ideas of the modern school reform movement Schoolhouse Shams lays bare much of the mythology and misinformation that underpin many of the failed school reform policies of the last decade Many of the top strategies of the highly publicized school reform movement already have been tried out in St Louis with disastrous results Along with demonstrating the failure of school reform prescriptions to improve education the experience of St Louis demonstrates that the ideological premise of the reform movement that a focus on providing opportunities for private profit taking will necessarily improve schools is both wrong and conflicts with the ideals of democracy accountability and justice **Resources in Education** ,1999-10 *Toxic Inequality* Thomas M. Shapiro, 2017-03-14 From a leading authority on race and public policy a deeply researched account of how families rise and

fall today Since the Great Recession most Americans standard of living has stagnated or declined Economic inequality is at historic highs But inequality s impact differs by race African Americans net wealth is just a tenth that of white Americans and over recent decades white families have accumulated wealth at three times the rate of black families In our increasingly diverse nation sociologist Thomas M Shapiro argues wealth disparities must be understood in tandem with racial inequities a dangerous combination he terms toxic inequality In *Toxic Inequality* Shapiro reveals how these forces combine to trap families in place Following nearly two hundred families of different races and income levels over a period of twelve years Shapiro s research vividly documents the recession s toll on parents and children the ways families use assets to manage crises and create opportunities and the real reasons some families build wealth while others struggle in poverty The structure of our neighborhoods workplaces and tax code much more than individual choices push some forward and hold others back A lack of assets far more common in families of color can often ruin parents careful plans for themselves and their children Toxic inequality may seem inexorable but it is not inevitable America s growing wealth gap and its yawning racial divide have been forged by history and preserved by policy and only bold race conscious reforms can move us toward a more just society Everyone concerned about the toxic effects of inequality must read this book Robert B Reich This is one of the most thought provoking books I have read on economic inequality in the US William Julius Wilson [73 Amateur Radio](#) ,1976-07 [Discovering the World of Geography, Grades 5 - 6](#) Myrl Shireman,2003-01-01 Includes activities that develop the knowledge and skills that address the National Geography Standards The student pages can be reproduced for classroom use
