Class and Economic Change in Kenya G. N. Kitching, 1980-01-01 This historical analysis is followed by a theoretical discussion of its implications for such issues as the mode of production operative in Kenya the type of class analysis which is appropriate for the country the role of the state in capital accumulation and class formation and the possible relevance of Marxist value theory to the analysis of exploitation in Kenya This book sets new standards for the study of the process of drift into dependency and of the role of the state in the direction of a political economy It will be invaluable not only to Africanists but to all those involved in the study of the social political and economic structure of Third World countries **Economics of Forestry**, 1959 British Labour Seeks a Foreign Policy, 1900-1940 Henry Winkler, 2017-10-24 Since World War II the British Labour Party has played a central role in dealing with complex international issues Achieving real power in parliament for the first time Labour governments have acted responsibly and are usually in accord with the views of a substantial majority of the British people Such was not always the case In *British Labour Seeks a Foreign Policy 1900 1940* Henry R Winkler synthesizes twenty years study of the subject to offer the first full scale treatment of the Labour Party s evolution in foreign affairs The Labour Party came into existence at the beginning of the twentieth century to deal with the domestic problems of the working class and it showed relatively little interest in foreign policy issues In the aftermath of World War I however small groups of moderates made the case against the bitter rejection of the Versailles Treaty by many in the Labour Party and the trade union movement Most of these argued that the League of Nations could be used to remedy some of the deficiencies of the settlement and that such a League must have the sanction of force if it was to be effective During the 1930s the failures of the League in the Far East Abyssinia Spain and Central Europe compelled some of its advocates to conclude that League or no League the threat from Nazi Germany mandated support for a program of preparedness and rearmament even under the aegis of a hated National Government The result by 1937 was the final formal abandonment of many of the radical illusions of the twenties and thirties as Labour reluctantly but formally assumed a posture that enabled it to share in the governance of wartime Britain and to take a key role in dealing with the international issues that emerged in the aftermath of the Second World War This volume contains valuable lessons on the responsibilities of political parties as well as the pros and cons of specific policies It is essential reading for understanding Britain s later stands as its leaders tried to adjust to Britain s diminished power in the post World War II world *The White House Conference on Balanced National Growth & Economic Development*, 1978 **The Challenge of Blackness** Derrick E. White, 2011-09-01 The Challenge of Blackness examines the history and legacy of the Institute of the Black World IBW one of the most important Black Freedom Struggle organizations to emerge in the aftermath of the assassination of Dr Martin Luther King Jr A think tank based in Atlanta the IBW sought to answer King s question Where do we go from here Its solution was to organize a broad array of leading Black activists scholars and intellectuals to find ways to combine the emerging

academic discipline of Black Studies with the Black political agenda Throughout the 1970s debates over race and class in the United States grew increasingly hostile and the IBW's approach was ultimately unable to challenge the growing conservatism By using the IBW as the lens through which to view these turbulent years Derrick White provides an exciting new interpretation of the immediate post civil rights years in America
