Multicultural Education in Glocal Perspectives Yun-Kyung Cha,Jagdish Gundara,Seung-Hwan Ham,Moosung Lee,2016-11-15 This conceptually rich and empirically grounded book draws upon expertise from a panel of emerging and established international scholars to explore the institutionalization and effect of multicultural education on a global scale Previous studies of multicultural education have largely ignored the significance of understanding the combination of multiple sociopolitical influences on multicultural education in both policy and practice Filling this void this book sheds light on the two main reasons for taking a glocal perspective on multicultural education First children should be provided with meaningful learning opportunities to acquire the knowledge skills and attitudes necessary to live in a culturally and ethno linguistically diverse society where the distinction between the local and the global is becoming blurred Second understanding both the global grammar and the local semantics of multicultural education helps researchers and policy makers grasp the whole picture of multicultural education as an evolving social construct and phenomenon This new book provokes a new round of discussion and research to expand and enrich our inquiry into cultural diversity and educational inclusion *Nainital Bank Clerks & Management Trainees Exam | 10 Full-length Mock Tests (Solved 2000+ Questions)*
