2014 History Paper 2 Memorandum:

Scientific History Elena Aronova, 2021-04-02 Introduction The quest for scientific history Scientific history and the Russian locale Nikolai Vavilov genogeography and history's past future Julian Huxley's cold wars The UNESCO History of Mankind Cultural and Scientific Development Project Information socialism historical informatics and the markets Epilogue

Differential Undercounts in the U.S. Census William P. O'Hare, 2019-02-13 This open access book describes the differences in US census coverage also referred to as differential undercount by showing which groups have the highest net undercounts and which groups have the greatest undercount differentials and discusses why such undercounts occur In addition to focusing on measuring census coverage for several demographic characteristics including age gender race Hispanic origin status and tenure it also considers several of the main hard to count populations such as immigrants the homeless the LGBT community children in foster care and the disabled However given the dearth of accurate undercount data for these groups they are covered less comprehensively than those demographic groups for which there is reliable undercount data from the Census Bureau This book is of interest to demographers statisticians survey methodologists and all those interested in census coverage

Richard M. Nixon and European Integration Joseph M. Siracusa, Hang Thi Thuy Nguyen, 2018-04-13 This book re-examines the Nixon administration's attitude and approach to the European integration project The formulation of US policy towards European integration in the Nixon presidential years 1969-1974 was conditioned by the perceived relative decline of the United States Western European emergence and competition the feared Communist expansionism and US national interests Against that backdrop the Nixon administration saw the need to re-evaluate its policy on Western Europe and the integration process on this continent Underpinning this study is the extensive use of newly released archival materials from the Nixon Presidential Library and Museum the Library of Congress and the State Department Furthermore the work is based on the public papers in the American Presidency Project and the materials on the topic of European integration and unification in the Archive of European Integration Finally the study has extensively used newspaper archives as well as the declassified online documents memoirs and diaries of former US officials Mining these sources made it possible to shed new light on the complexity and dynamism of the Nixon administration's policy towards European integration

Speaker Jim Wright J. Brooks Flippen, 2018-04-01 Jim Wright made his mark on virtually every major public policy issue in the later twentieth century energy education taxes transportation environmental protection civil rights criminal justice and foreign relations among them He played a significant role in peace initiatives in Central America and in the Camp David Accords and he was the first American politician to speak live on Soviet television A Democrat representing Texas's twelfth district Fort Worth Wright served in the US House of Representatives from the Eisenhower administration to the presidency of George H W Bush including twelve years 1977-1989 as majority leader and speaker His long congressional ascension and sudden fall in a highly partisan ethics scandal spearheaded by Newt Gingrich

mirrored the evolution of Congress as an institution Speaker Jim Wright traces the congressman's long life and career in a highly readable narrative grounded in extensive interviews with Wright and access to his personal diaries A skilled connector who bridged the conservative and liberal wings of the Democratic party while forging alliances with Republicans to pass legislation Wright ultimately fell victim to a new era of political infighting as well as to his own hubris and mistakes J Brooks Flippen shows how Wright's career shaped the political culture of Congress from its internal rules and power structure to its growing partisanship even as those new dynamics eventually contributed to his political demise To understand Jim Wright in all his complexity is to understand the story of modern American politics *Defenders of Japan* Garren Mulloy,2021-12-01

Japan's navy is three times the size of France's and Britain's combined yet most people think it a defenceless nation This book unravels that paradox *The Liberators of Pilsen* Bryan J. Dickerson,2018-01-14 Formed in July 1943 at Camp Chaffee Arkansas the 16th Armored Division was the last U S armored division to be activated in World War II the last deployed to the European Theater and the last to see combat As the war in Europe was coming to an end General George S Patton chose the division to spearhead a daring advance into Czechoslovakia In its first and only combat operation the 16th liberated the city of Pilsen forever endearing itself to the Czech people Poised to continue to the capital city of Prague the division was halted not by German resistance but by political rivalries between the Western powers and the Soviet Union Official U S Army records and veteran accounts tell the story of the unit's brief two year existence and its successful mission *Hong Kong Public Housing* Miles Glendinning,2024-11-28 Hong Kong Public Housing provides the first comprehensive history of one of the most dramatic episodes in the global history of the modern built environment the vast public housing programme sponsored by successive Hong Kong governments from the 1950s in a quest to build up the territory into a lasting people's home And unlike many of its counterparts elsewhere this is a programme still ongoing today a case of history in progress as Hong Kong now boasts one of the world's longest lasting public housing programmes During that time it has been not just a mirror of the cultural and economic values of Hong Kong society but also a reflection of more nebulous fast changing perceptions of identity and a testament to the community building achievements of Hongkongers over these years This authoritative study combines architectural history with the broader social political and cultural aspects of housing production particularly the geo political issues of sovereignty and decolonisation that uniquely and fundamentally structured the trajectory of Hong Kong public housing and territory development Exploring the relationship between built form ideology and administrative governance it shows how massive state intervention interacted at times uneasily with Hong Kong's dominant laissez faire ethos to help maintain the legitimacy of successive administrations during an era of auto decolonisation and support an interstitial society suspended between two sovereignties Following more recent political changes Hong Kong's public housing heritage has also become a focus of nostalgic community pride a monumental achievement of home building which this book documents and celebrates for posterity **Across Space and Time** Arianna Traviglia,2025-10-01 This

volume presents a selection of the best papers presented at the forty first annual Conference on Computer Applications and Quantitative Methods in Archaeology The theme for the conference was Across Space and Time and the papers explore a multitude of topics related to that concept including databases the semantic Web geographical information systems data collection and management and more

[Nixon's Nuclear Specter](#) William Burr, Jeffrey P. Kimball, 2015-06-15 In their initial effort to end the Vietnam War Richard Nixon and Henry

Kissinger attempted to lever concessions from Hanoi at the negotiating table with military force and coercive diplomacy. They were not seeking military victory which they did not believe was feasible. Instead they backed up their diplomacy toward North Vietnam and the Soviet Union with the Madman Theory of threatening excessive force which included the specter of nuclear force. They began with verbal threats then bombed North Vietnamese and Viet Cong base areas in Cambodia signaling that there was more to come. As the bombing expanded they launched a previously unknown mining ruse against Haiphong stepped up their warnings to Hanoi and Moscow and initiated planning for a massive shock and awe military operation referred to within the White House inner circle as DUCK HOOK. Beyond the mining of North Vietnamese ports and selective bombing in and around Hanoi the initial DUCK HOOK concept included proposals for tactical nuclear strikes against logistics targets and U S and South Vietnamese ground incursions into the North. In early October 1969 however Nixon aborted planning for the long contemplated operation. He had been influenced by Hanoi's defiance in the face of his dire threats and concerned about U S public reaction, antiwar protests and internal administration dissent. In place of DUCK HOOK Nixon and Kissinger launched a secret global nuclear alert in hopes that it would lend credibility to their prior warnings and perhaps even persuade Moscow to put pressure on Hanoi. It was to be a special reminder of how far President Nixon might go. The risky gambit failed to move the Soviets but it marked a turning point in the administration's strategy for exiting Vietnam. Nixon and Kissinger became increasingly resigned to a long route policy of providing Saigon with a decent chance of survival for a decent interval after a negotiated settlement and U S forces left Indochina. Burr and Kimball draw upon extensive research in participant interviews and declassified documents to unravel this intricate story of the October 1969 nuclear alert. They place it in the context of nuclear threat making and coercive diplomacy since 1945, the culture of the Bomb, intra governmental dissent, domestic political pressures, the international nuclear taboo and Vietnamese and Soviet actions and policies. It is a history that holds important lessons for the present and future about the risks and uncertainties of nuclear threat making.
