

Passage 1: Are Zoes a Good Thing?

These are hugely popular attractions for adults and children alike. But are they actually a good thing?

Critics of zoos would argue that animals often suffer physically and mentally by being confined. Even the best artificial environments can't come close to matching the space, diversity, and freedom that animals have in their natural habitats. This deprivation causes many zoo animals to become stressed. . . . Capturing animals in the wild also causes much suffering. . . . Some zoos make animals behave unnaturally. For example, marine parks often force dolphins and whales to perform tricks. . . .

On the other hand, by bringing people and animals together, zoos have the potential to educate the public about conservation issues and inspire people to protect animals and their habitats. Zoos can provide a safe environment for animals which have been mistreated in circuses, or pets which have been abandoned. From this opportunity and important research into animals the animal behaviour and how to treat them.

One of the most important modern functions of zoos is supporting international breeding programmes, particularly for endangered species. In the wild, some of the rarer species have difficulty in finding mates and breeding, and they might also be threatened by poachers, loss of their habitat and predators. A good zoo will enable these species to live and breed in a secure environment. In addition, as numbers of some wild species drop, there is an increased danger of populations becoming too genetically similar. Breeding programmes provide a safeguard: one bred animals can be released into the wild to increase genetic diversity.

However, opponents of one way that the vast majority of captive breeding programmes do not release animals back into the wild. Orphan animals are sold not only to other men but also to circuses or ... markets.

So, are you good for animals or not? Perhaps it all depends on how well individual you are managed, and the benefits of you can surely outweigh their harmful effects. However, it is understandable that some people believe engineering animals for any reason is simply wrong.
