The End of Public Schools David W. Hursh, 2015-10-16 The End of Public Schools analyzes the effect of foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public

China's Domestic and International Migration Development Huiyao Wang, Lu Miao, 2019-03-09 This book offers the most comprehensive up to date assessment of China s domestic and international migration Restructuring economic development requires large numbers of educated and skilled talents but this effort comes at a time when the size of China s domestic workforce is shrinking In response both national and regional governments in China have been keen to encourage overseas Chinese talents and professionals to return to the country Meanwhile the Chinese government has initiated a number of policies to attract international highly skilled talents and enhance the country s competitiveness and some Chinese policies have started attracting foreign talents who are coming to the country to work and even to stay Since Chinese policies mechanisms and administration efforts to attract and retain skilled domestic or overseas talents are helping to reshape China s economy and are significantly affecting the cooperation on migration and talent mobility these aspects in addition to being of scholarly and research interest hold considerable commercial potential
