American Honda Motor Co., Inc.

SAFETY RECALL

MULTIPLE MODELS - STARTER RELAY SWITCH INSPECTION/REPLACEMENT

(This supersedes Starter Relay Switch #1, dated July 2015)

Honda Motor Co., Ltd is conducting a Safety Recall of motorcycles and scooters listed in the **AFFECTED UNITS** section of this bulletin. Honda has determined that a defect within certain starter relay switch assemblies can cause an increase in resistance at the main fuse, potentially interrupting battery voltage to the electrical system which can cause the engine to A) not start or B) stall while riding. In an extreme case, the increased resistance at the main fuse may cause the starter relay switch to catch on fire.

A replacement starter relay switch is available to correct this condition in units that fail the inspection procedure.

Safety Consequence

An engine that stalls while riding increases the risk of a crash.

CUSTOMER NOTIFICATION

American Honda is sending a letter to owners of all affected motorcycles, informing them that their motorcycle/scooter is being recalled for a safety related defect. The customer will be made aware of the safety risk and advised to have a Honda dealer inspect and, if necessary, replace the starter relay switch.

For your reference, a copy of the Customer Letter is reproduced on pages 11 and 12 of this Service Bulletin.
