States of Subsistence José Ciro Martínez, 2022-04-12 On any given day in Jordan more than nine million residents eat approximately ten million loaves of khubz arabi the slightly leavened flatbread known to many as pita Some rely on this bread to avoid starvation for others it is a customary pleasure Yet despite its ubiquity in accounts of Middle East politics and society rarely do we consider how bread is prepared consumed discussed and circulated and what this all represents With this book Jos Ciro Mart nez examines khubz arabi to unpack the effects of the welfare program that ensures its widespread availability Drawing on more than a year working as a baker in Amman Mart nez probes the practices that underpin subsidized bread Following bakers and bureaucrats he offers an immersive examination of social welfare provision Mart nez argues that the state is best understood as the product of routine practices and actions through which it becomes a stable truth in the lives of citizens States of Subsistence not only describes logics of rule in contemporary Jordan and the place of bread within them but also unpacks how the state endures through forms sensations and practices amid the seemingly unglamorous and unspectacular day to day
