The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh s first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace s reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America s oldest public schools

Multidisciplinary Perspectives on Zimbabwe's Liberation Struggle Munyaradzi Nyakudya, Wesley Mwatwara, Joseph Mujere, 2022-11-15 This book provides a timely reconceptualization of Zimbabwe s anti colonial liberation struggle resisting simple binaries in favour of more nuanced critical analysis Most historiographies characterize Zimbabwe s liberation struggle as being defined by simple bifurcations along racial ethnic class and ideological perspectives This book argues that the nationalist struggle is

far more complex than such simple configurations would suggest and that many actors have been overlooked in the analysis. The book broadens our understanding by analysing the roles of a wide range of political figures, organizations and members of the military as well as the media and the often overlooked part that women played. Over the course of the book, the contributors also reflect on the ways in which revolutionary figures have been repainted as sellouts, in particular by the ZANU PF ruling party and what that means for the country's interpretation of their recent past. Highlighting in particular the expertise of leading scholars from within Zimbabwe across a range of disciplines, this book will be of interest to researchers of African history, politics and postcolonial studies. **Yearbook of International Organizations 2014-2015 (Volume 4)**

In the West, news about the Middle East is dominated by an endless stream of reports and commentary about civil war, sectarian violence, religious extremism and economic stagnation. But do they tell the full story? For instance, who knew that university enrolment in the war-torn Palestinian territories exceeds that of Hong Kong, or that more than a third of Lebanese entrepreneurs are women? Change is on its way in the Middle East, argues Bessma Momani, and its cause is demographic. Today, one in five Arabs is between the ages of fifteen and twenty-four. Young, optimistic and increasingly cosmopolitan, their generation will shape the region's future. Drawing on interviews, surveys and other research conducted with young people in fifteen countries across the Arab world, Momani describes the passion for entrepreneurship, reform and equality among Arab youth. With insightful political analysis based on the latest statistics and first-hand accounts, *Arab Dawn* is an invigorating study of the Arab world and the transformative power of youth. Official Gazette Philippines, 2004. **Global Social Policy** Kepa Artaraz, Liz Cunningham, Michael Hill, 2016-06-29. Social policy is a subject that helps develop our understanding of the meaning of human wellbeing and of the systems by which wellbeing must be promoted. As a discipline, social policy has traditionally been blunted by a focus on the nation-state; however, in this age of globalisation, the most pressing challenges, such as climate change, ageing populations and flagging economies, serve as proof that even at national level, social policy is now more heavily influenced by global factors than ever before. In this important and authoritative text, Kepa Artaraz and Michael Hill provide a

richly detailed contribution to our understanding of the global forces shaping social problems today Part One discusses the different approaches to social policy and explores the process of globalisation looking particularly at its winners and losers and the implications it has for human well being Part Two examines more closely the key actors in global social policy such as the market the state and international organisations and Part Three provides an opportunity to explore some specific key issues of global importance such as employment and migration demographic change and global poverty Adding considerable momentum to the movement away from a reductionist nationally focused study of the discipline Global Social Policy opens up new and stimulating discussions and provides a fresh framework for the study of human well being Using policy examples from areas around the world to provide a truly international scope it is an essential read for students studying at all levels
