The Great Music City Andrea Baker, 2019-03-01 In the 1960s as gentrification took hold of New York City Jane Jacobs predicted that the city would become the true player in the global system Indeed in the 21st century more meaningful comparisons can be made between cities than between nations and states Based on case studies of Melbourne Austin and Berlin this book is the first in depth study to combine academic and industry analysis of the music cities phenomenon Using four distinctly defined algorithms as benchmarks it interrogates Richard Florida's creative cities thesis and applies a much needed synergy of urban sociology and musicology to the concept mediated by a journalism lens Building on seminal work by Robert Park Lewis Mumford and Jane Jacobs it argues that journalists are the cultural branders and street theorists whose ethnographic approach offers critical insights into the urban sociability of music activity Carceral Mobilities Jennifer Turner, Kimberley Peters, 2016-12-01 Mobilities research is now centre stage in the social sciences with wide ranging work that considers the politics underscoring the movements of people and objects critically examining a world that is ever on the move At first glance the words carceral and mobilities seem to sit uneasily together This book challenges the assumption that carceral life is characterised by a lack of movement Carceral Mobilities brings together contributions that speak to contemporary debates across carceral studies and mobilities research offering fresh insights to both areas by identifying and unpicking the manifold mobilities that shape and are shaped by carceral regimes It features four sections that move the reader through the varying typologies of motion underscoring carceral life tension circulation distribution and transition Each mobilities led section seeks to explore the politics encapsulated in specific regimes of carceral movement With contributions from leading scholars and a range of international examples this book provides an authoritative voice on carceral mobilities from a variety of perspectives including criminology sociology history cultural theory human geography and urban planning This book offers a first port of call for those examining spaces of detention asylum imprisonment and
