2014 Matric Life Orientation Self Study Guide:

The Global Testing Culture William C. Smith, 2016-01-04 The past thirty years have seen a rapid expansion of testing exposing students worldwide to tests that are now more than ever standardized and linked to high stakes outcomes The use of testing as a policy tool has been legitimized within international educational development to measure education quality in the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions of the culture and describe how the culture manifests in national contexts The volume makes it clear that testing per se is not the problem Instead it is how tests are administered used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences *Out in the open*

UNESCO, 2016-12-31 Aucune information saisie **Social Im/mobilities in Africa** Joël Noret, 2019-11-08 Grounded in both theory and ethnography this volume insists on taking social positionality seriously when accounting for Africa's current age of polarizing wealth To this end the book advocates a multidimensional view of African societies in which social positions consist of a variety of intersecting social powers or capitals including wealth education social relationships religion ethnicity and others Accordingly the notion of social im/mobilities emphasizes the complexities of current changes taking us beyond the prism of a one dimensional social ladder for social moves cannot always be apprehended through the binaries of gains and losses *Teaching and Learning Mathematics Online* James P. Howard, II, John F. Beyers, 2025-06-30 Teaching and Learning Mathematics Online Second Edition continues to present meaningful and practical solutions for teaching mathematics and statistics online It focuses on the problems observed by mathematics instructors currently working in the field who strive to hone their craft and share best practices with the community The book provides a set of standard

practices improving the quality of online teaching and the learning of mathematics Instructors will benefit from learning new techniques and approaches to delivering content New to the Second Edition Nine brand new chapters Reflections on the lessons of COVID 19 Explorations of new technological opportunities Pathways of Adult Learning Colleen Kawalilak, Janet Groen, 2014 This book provides educators and facilitators with a comprehensive overview of the historical underpinnings and philosophical orientations of adult education and adult learning while attending to the various roles individuals play both within and beyond the formal constraints of the classroom Positioning learners and instructors educational narratives as central to the theories that inform adult education Pathways of Adult Learning opens up a dialogue among students educators community members scholars and working professionals about the many possible avenues toward knowledge sharing Employing a personal accessible tone Janet Groen and Colleen Kawalilak take up a relational approach that encourages readers to reflect upon their own experiences as learners within the broadening context of adult education Conscious of the power imbalances that can emerge in both institutional and professional work and learning environments this text explores specific teaching and facilitation strategies that effectively generate ideas and accommodate adult learners of varying gender orientations socio economic backgrounds and ethnicities Through their collaborative analysis of a diverse collection of first person narratives provided by both students and scholars working in the field the authors construct a multi faceted portrait of the status of adult learning today Integrating a critical lens to explore how social cultural and economic factors influence and shape individual and collective pathways toward lifelong learning this text is an indispensable guide for anyone studying or facilitating educational programming for adults in diverse work and learning contexts Polling Student Voices for School Improvement Paris S. Strom, Robert D. Strom, 2023-11-01 The purpose of this book is to help secondary school principals and college faculty fulfill their key role for continuous improvement planning of educational practices and safety at their institution Rapid social and technological advances have motivated the consideration of student voice in schools across the United States By merging student voice and educator expertise an intergenerational perspective can emerge that more accurately portrays the strengths and limitations of a school Strom and Strom began their research on student voice by partnering with adolescents and principals from several schools to identify topics they saw as appropriate for polling to improve schools This effort led to the development of ten polls on school stress career exploration time management attention and distraction tutoring peer support school cheating frustration cyberbullying and Internet learning Every poll contains 15 to 20 multiple choice items The process model for polling includes a step by step procedure that educational leaders can use to plan and implement school improvement Different methods of data analysis and ways to report overall evidence based school results are presented by age gender grade and ethnicity Student polling is distinctive from other assessment strategies because the target for data gathering is a single school without comparison to other schools This narrow base to assess student voice ensures poll results are anonymous and have local relevance to guide

stakeholder responses The results of polling can provide data based evidence that can be used for continuous education improvement planning An additional benefit is to separately assess students in special education gifted and talented programs and second language acquisition learners Our web site at learningpolls.org is intended to further inform educational leaders and invite their collaboration

Grief and Loss Across the Lifespan Judith L. M. McCoyd, Jeanne Koller, Carolyn Ambler Walter, 2021-01-29 Note to Readers Publisher does not guarantee quality or access to any included digital components if book is purchased through a third party seller The third edition of this unrivaled text on loss grief and bereavement continues to provide a unique biopsychosocial perspective and developmental framework for understanding grieving patterns Organized by a lifespan trajectory this text describes developmental aspects of grieving linking these theories to effective clinical work Biopsychosocial developmental theories including neurobiological and genetic information frame chapters that include recent research on how people of that age respond to varied loss situations and intervention strategies supported by practice experience and empirical evidence are addressed The new edition illuminates special considerations in risk and resilience for each life phase systematically addressing issues of oppression marginalization and health disparities It includes a new chapter on grief and loss as they effect individuals over 85 and covers spiritual development for each life phase The book restructures the adult chapters to reflect major changes in theories on expanded lifespans adds to content on evolving living arrangements for aging individuals and expands coverage of common losses at different points in the lifespan This new edition includes material on ageism and its impact on health and also examines the challenges faced by older adults in the LGBT community Additionally the third edition explicitly incorporates the rapidly evolving science of Adverse Childhood Experiences addressing how ACEs intersect with grief and loss Vignettes and case studies are incorporated into each life phase chapter illuminating the lived experience of grief Thought provoking discussion questions chapter objectives and additional resources for both students and instructors reinforce critical thinking and an Instructor s Manual Casebook of prior chapter readings and PowerPoint slides are available for download A free eBook is included with every text purchase New to the Third Edition Adds Special Considerations in Risk and Resilience to every chapter Incorporates Adverse Childhood Experiences ACEs and their effects at various life stages Focus on neurobiological and genomic aspects of health Includes a new chapter on the Fourth Age from 85 up Discusses spiritual development for each life phase Incorporates new case studies Restructures adult chapters to reflect major new theories about expanded lifespans Welcomes a new author who adds content on the third and fourth ages of older adulthood ageism and the experience of aging in LGBT communities Expands content on areas of marginalization race gender financial resources educational disparities and more Expands content on evolving living arrangements for older adults Expands information on typical losses at different life stages Delivers expanded web materials including a casebook of prior readings from earlier editions in addition to PowerPoint slides and class plans and activities in the Instructor Manual Key Features Provides a
