2014 Memorandum Geography December:

Geographies of Displacement/s Kendra Strauss, 2023-05-29 This book assembles cutting edge contemporary research and thinking on multiple forms and meanings of displacements and their geographies patterns of shifting dislocation or putting out of place substitutions of one idea for another or the unconscious transfer of intense feelings or emotions activities occurring outside their normal context and replacements of one thing by another The COVID 19 pandemic declared by the World Health Organization in 2020 produced new displacements and intensified existing patterns of displacement and dispossession At the same time socionatural displacements floods fires droughts hurricanes sea level rise species loss and dislocation were the backdrop to the displaced and deferred hopes of the 2021 United Nations Climate Change Conference The chapters in this volume contend with how we as geographers conceptualize and theorize displacements the range of sites spaces processes affects scales and actors we study with to understand them and what is at stake politically in how we research displacements It is also a pandemic archive of academic labor in which we find traces of displacements within and beyond the academic discipline of geography Geographies of Displacement s will be of particular interest to students scholars and researchers of Geography including those interested in human geography socio natural displacements and the politics of migration and displacement The chapters in this book were originally published as a special issue of Annals of the American Association of Geographers *Regional Research Frontiers - Vol. 1* Randall Jackson, Peter Schaeffer, 2017-04-17 This volume focuses on frontiers in regional research and identifies trends and future developments in the areas of innovation regional growth and migration It also addresses topics such as mobility regional forecasting and regional policy and includes expert contributions on disasters resilience and sustainability Building on recent methodological and modelling advances as well as on extensive policy analysis experience top international regional scientists identify and evaluate emerging new conceptual and methodological trends and directions in regional research This book will appeal to a wide readership from regional scientists and economists to geographers quantitatively oriented regional planners and other related disciplines It offers a source of relevant information for academic researchers and policy analysts in government and is also suitable for advanced teaching courses on regional and spatial science economics and political science **Children of Migrants in China** Kam Wing Chan, Yuan Ren, 2020-11-25 Children are precious in China especially as its population ages rapidly The unprecedented fast urbanization and massive internal migration have profoundly changed almost every aspect of society They have impacted the livelihood of children of migrants most Because of the hukou system and related policies China s internal migrants face major obstacles to assimilate into cities But more than that as this book shows these policies have also torn families apart on a scale unseen heretofore More than 100 million children grow up in unstable families and the great majority have suffered from prolonged separation from their parents in the migratory upheaval This book provides an updated analysis of this mega and painful process unfolding at various geographical scales The chapters revolve around

the central notion of family togetherness or the lack thereof The book measures dissects and analyses the impacts of migration on children and recommends policies to address major problems from a variety of disciplinary perspectives employing different methodologies The problems faced by the children of migrants remain enormous and it is a looming huge crisis in the making If unaddressed those problems can damage a whole generation with serious consequences The chapters in this book were first published in *Eurasian Geography and Economics* *Peer-to-peer Accommodation and Community Resilience* Anna Farmaki,Dimitri Ioannides,Stella Kladou,2022-03-16 The growth of peer to peer P2P accommodation has been remarkable However the rapid expansion of the phenomenon has yielded several concerns over its potentially negative economic social and environmental impacts These impacts are highlighted in policy agendas as an emerging problem encountered by many local communities in destinations experiencing a boom in P2P accommodation Specifically concerns have been raised over the impact of the growth of P2P accommodation on local housing markets residents well being and the environment as a result of the touristification of residential areas In fact many observers accuse P2P accommodation of fuelling the overtourism problem that several destinations face This edited book addresses the need to examine the P2P accommodation phenomenon from a community resilience lens In particular through a collection of chapters presenting a range of empirical and conceptual perspectives from urban and rural communities the book considers the implications of P2P accommodation growth on the resilience of local communities and the sustainable development of places **Kyrgyzstan - Regime Security and Foreign Policy** Kemel Toktomushev,2016-10-04 Kyrgyzstan is an interesting example of a relatively weak state which for its brief period of independence has already ousted two presidents experienced two revolutions survived two interethnic conflicts and yet remained intact This book explores this apparent paradox and argues that the schism between domestic and international dimensions of state and regime security is key to understanding the nature of Kyrgyz politics The book shows how the foreign policy links to the Manas Air Base used by the US military and essential for supplying their forces in Afghanistan the economic arrangements necessary for sustaining the base both inside and outside Kyrgyzstan and the myriad of different actors involved in all this combined to overshadow points of friction to ensure stable continuance of the status quo Overall the book shows how broad geopolitical forces and complex local factors together have a huge impact on the formation of Kyrgyz foreign policy Debt and Austerity Jodi Gardner,Mia Gray,Katharina Moser,2020-11-27 This book explores the complex interactions between debt and austerity analysing the social economic and legal implications of governments responses to the 2008 financial crisis *Towards a Cultural Politics of Climate Change* Harriet Bulkeley,Matthew Paterson,Johannes Strippel,2016-09-15 *Towards a Cultural Politics of Climate Change* provides a new perspective on how climate change matters in policy making business and everyday life It argues that the work of low carbon transitions takes place through the creation of devices the mobilisation of desires and the articulation of dissent Using case studies from the US Australia and Europe the book examines the creation and contestation of new forms of

cultural politics of how a climate changed society is articulated realized and contested Through this approach it opens up questions about how where and by whom climate politics is conducted and the ways in which we might respond differently to this societal challenge This book provides a key reference point for the emerging academic community working on the cultural politics of climate change and a means through which to engage this new area of research with the broader social sciences

Libya in the Arab Spring Ramazan Erdağ, 2017-03-22 By examining Libya's security architecture before and after the North Atlantic Treaty Organization NATO intervention in 2011 this book aims to answer three questions First what were the security patterns in Libya within the Middle East security complex before the Arab Spring Second to what extent did the Arab Spring and the revolution and intervention processes in Libya affect this security architecture And third what are the implications of the Libyan revolution and the NATO intervention on regional security and on the security sub-complexes of the Middle East in the post Arab Spring era The author addresses these issues by providing a micro level analysis of amity enmity patterns power distribution and external power interests

Legal Phantoms Susan Bibler Coutin, Jennifer M. Chacón, Stephen Lee, 2024-01-30 The 2012 Deferred Action for Childhood Arrivals DACA program was supposed to be a stepping stone a policy innovation announced by the White House designed to put pressure on Congress for a broader lasting set of legislative changes Those changes never materialized and the people who hoped to benefit from them have been forced to navigate a tense and contradictory policy landscape ever since haunted by these unfulfilled promises *Legal Phantoms* tells their story After Congress failed to pass a comprehensive immigration bill in 2013 President Obama pivoted in 2014 to supplementing DACA with a deferred action program known as DAPA for the parents of citizens and lawful permanent residents and a DACA expansion DACA in 2014 But challenges from Republican led states prevented even these programs from going into effect Interviews with would be applicants immigrant rights advocates and government officials reveal how such failed immigration reform efforts continue to affect not only those who had hoped to benefit but their families communities and the country in which they have made an uneasy home Out of the ashes of these lost dreams though people find their own paths forward through uncharted legal territory with creativity and resistance

Red, White, and Black Robert L. Woodson, Sr., 2021-05-11 In the rush to redefine the place of black Americans in contemporary society many radical activists and academics have mounted a campaign to destroy traditional American history and replace it with a politicized version that few would recognize According to the new radical orthodoxy the United States was founded as a racist nation and everything that has happened throughout our history must be viewed through the lens of the systemic oppression of black people Rejecting this false narrative a collection of the most prominent and respected black scholars and thinkers has come together to correct the record and tell the true story of black Americans in all its complexity diversity of experience and poignancy Collectively they paint a vivid picture of black people living the grand American experience however bumpy the road may be along the way But rather than a people apart blacks are woven into the united whole that
