conference on the medieval chronicle it was decided that another would be in place It was held in the summer of 1999 and again drew some 150 participants There are several reasons why the chronicle is particularly suited as the topic of an international conference In the first place there is its ubiquity all over Europe and throughout the Middle Ages chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions Like its predecessor this volume of conference papers aims to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds They are introduced by the opening address by David Dumville on the question What is a chronicle

, **Rhetorical Analyses of Literary Works** Edward P. J. Corbett,1969 Rhetorical Investigations Leslie Gardner,2013-04-12 Rhetorical analysis of texts exposes plausible truths and presumptions implied by the writer s presentation In this volume Leslie Gardner analyses the master psychologist Jung who claimed to be expert at uncovering personal psychological truths In his theoretical writings his rhetoric reveals philosophical ramifications which bear strong similarities to those of the rhetorician of the 18th century Italian philosopher Giambattista Vico This book is driven by an interest in arguing that it is possible to read Jung s works easily enough when you have a set of precepts to go by The paradox of scientific discovery being set out in Jung s grotesque and arcane imagery begins to seem a startling and

legitimate psychology for the 21st century It is time Jungian studies took on this most appropriate examination of analytical psychology Bringing Vico to bear directly on Jung s thought has only been cursorily attempted before although much alluded to We find indeed that some of Jung s ideas derive directly from rhetorical theory and this volume proposes to highlight Jung s innovations and bring him into forefront of contemporary psychological thought Rhetorical Investigations will be of interest to analysts and academics and also to those studying philosophy and psychology *Josephus Geographicus* Yuval Shahar,2004 Why did ancient historians include geographical descriptions in their historical works How does the spatial description fulfill its goal In this book Yuval Shahar discusses these two questions showing that the answers depend on the particular historian and the genre in which he is writing He analyzes and compares the presentation of geographical space in the writings of Herodotus Thucydides Polybius and Strabo with selected illustrations from early Latin historiography It is clear from this that Flavius Josephus consciously and definitively follows the generic approach of Polybius and Strabo Moreover Josephus descriptions of parts of the Land of Israel are structured in the same way as the descriptions in Strabo s Geography and reflect a hidden dialogue between Josephus and Strabo Awareness of these generic characteristics enables a new reading of some of Josephus most famous descriptions such as Jotapata Gamala and Masada and establishes his credibility **13th Conference on British and American Studies** Marinela Burada,2017-03-07 This volume brings together a selection of papers in linguistics presented at the 13th edition of the Conference on British and American Studies Structured into three chapters the studies included here are illustrative for the different perspectives methodologies and research traditions in the investigation of language related phenomena The first chapter Language Change and Cross Linguistic Analysis is mainly concerned with the external and internal catalysts for language change and with a number of morphosyntactic and semantic particularities of Romanian set in contrast with other languages Aspects related to first or second language learning and language as an instrument of thought form the content of the second chapter Language Acquisition Teaching and Processing The focus of the final chapter Pragmatics Translation and the Negotiation of Meaning is language as an instrument of power and self communication **A Dictionary of the Roman Empire** Matthew Bunson,1995 The extraordinarily rich cultural legacy of the Roman world has had a profound affect world civilization Roman achievements in architecture law politics literature war and philosophy serve as the foundation of modern Western society Now for the first time in an A Z format A Dictionary of the Roman Empire assembles the people places events and ideas of this remarkable period in one easy to use source With over 1 900 entries covering more than five hundred years of Roman history from Julius Caesar and the Gallic Wars 59 51 B C to the fall of Romulus Augustus the last Roman emperor 476 A D this accessible guide provides quick reference to one of the most studied periods of all antiquity Every aspect of Roman life is included Here are profiles of the great emperors such as Marcus Aurelius one of the most profoundly intellectual monarchs in western civilization and the aberrant Gaius Caligula who after draining the Roman treasury with his eccentric behavior made it a
