Therefore, knowing how to assess injuries and illnesses and begin treatment quickly is of vital importance for aspiring athletic trainers. *Acute and Emergency Care in Athletic Training With Web Study Guide* teaches students how to recognize and manage emergency conditions so they can provide appropriate patient care between the field and the emergency department. The book's comprehensive coverage adheres to and incorporates guidelines from the Commission on Accreditation of Athletic Training Education (CAATE) and the Board of Certification (BOC), and it is one of the first textbooks to align with the competencies outlined in the CAATE 2020 standards. To prepare students to effectively provide appropriate care before getting an injured or ill athlete to the hospital, *Acute and Emergency Care in Athletic Training* includes the following learning aids: Case studies in the web study guide offer practical scenarios that will facilitate critical thinking and decision-making skills. Clinical Skills sidebars guide students through the process of completing specific tasks such as splinting, wound care and airway maintenance. Red Flag sidebars indicate areas where significant caution is warranted. Decision-making algorithms and decision trees lead students through selecting the most appropriate treatment option based on a patient's signs and symptoms. Key terms are boldfaced in the text and are defined in the glossary section. With a full-color presentation and more than 280 photos and illustrations, the text takes a systematic approach to acute and emergency care, with the content divided into two parts. Part I provides critical information on prevention and risk management strategies, including developing an emergency action plan, conducting an emergency examination and administering emergency medications. To aid instructors using *Acute and Emergency Care in Athletic Training* in the classroom, there is a full array of ancillaries, including a test package, an instructor guide with sample answers to the case study questions and a presentation package plus image bank.
