Practising Theory and Reading Literature Raman Selden, 2016-04-22 Practising Theory and Reading Literature provides an accessible introduction to the study of contemporary literary theories and their applications to a range of literary texts. This is an elementary introduction where the emphasis is on practice and in this respect it complements A Reader's Guide to Contemporary Literary Theory.

Literary Theory: The Basics Hans Bertens, 2017-07-14 This third edition of Hans Bertens' bestselling book is an essential guide to the often confusing and complicated world of literary theory. Exploring a broad range of topics from Marxist and feminist criticism to postmodernism and new historicism, Literary Theory: The Basics covers contemporary topics including reception theory and reader response theory, the new criticism of postmodernism, the after theory debate, post-humanism, biopolitics and animal studies, aesthetics. Literary Theory: The Basics helps readers to approach the many theories and debates in this field with confidence. Now with updated case studies and further reading, this is an essential purchase for anyone who strives to understand literary theory today.

In Search of Authority - Third Edition Stephen Bonnycastle, 2007-04-26 In Search of Authority is the most engaging introduction to literary theory available today. This is the third edition of a book that has been widely used to introduce undergraduates to the field of literary theory. Its distinctive quality is the way in which it makes complex literary theories such as structuralism, deconstruction and postmodernism accessible to students by relating these theories to students' own enjoyment in reading literature. Each theory is illustrated by several applications of the theory to well-known literary works. Based on a reader response approach to literature, In Search of Authority begins with an up-to-date account of the status of literary theory in the 21st century, including a response to recent debates about the post-theory question. It concludes with a discussion of how an understanding of literary theory can lead to the empowerment of the individual reader and of how the authority of the professor can be gradually transferred to the student. This third edition has been revised and updated throughout. Each chapter ends with several questions to help students check their understanding of the key ideas in the chapter.

A Reader's Guide to Contemporary Literary Theory Raman Selden, Peter Widdowson, Peter Brooker, 2005 The fifth edition of this reader's guide remains true to the ideals of previous editions, providing a concise guide to contemporary literary theories. The book covers a vast range of differing forms of English literature.

The three texts are R In the Cage by Henry James, St Mawr by D H Lawrence and Heart of Darkness by Joseph Conrad. The branches of theory applied to them are Structuralism, Narrative Theory and Character Theory, Psychoanalytic Theory, Feminism, Linguistics and Reader Response Theory, Deconstruction and Marxism.

Literary Theory Hans Willem Bertens, 2001 **Literary Theories in Praxis** Shirley F. Staton, 1987 *Literary Theories in Praxis* analyzes the ways in which critical theories are transformed into literary criticism and methodology To demonstrate the application of this analysis critical writings of Roland Barthes Harold Bloom Cleanth Brooks Jacques Derrida Northrop Frye Norman Holland Barbara Johnson Jacques Lacan Adrienne Rich and Robert Scholes are examined in terms of the primary critical stance each author employs New Critical phenomenological archetypal structuralist semiotic sociological psychoanalytic reader response deconstructionist or humanist The book is divided into nine sections each with a prefatory essay explaining the critical stance taken in the selections that follow and describing how theory becomes literary criticism In a headnote to each selection Staton analyzes how the critic applies his or her critical methodology to the subject literary work Shirley F Staton s introduction sketches the overall philosophical positions and relationships among the various critical modes **Rehabilitating Literary Theory** Khaled Besbes, 2011 The present work seeks to bring literary theory in line with the most recent practical turn the humanities are witnessing When simplified succinctly presented and skillfully used in multi coded interpretation within a semiocritical framework literary theories become practical exercises in criticism not only facilitating the interpretation of literature but also making it more enjoyable and more rewarding This book is different from its counterparts in the sense that it includes an exceptionally expanded model of the practice of literary theories and replaces long and theoretical discussions with brief synopses of the examined theories It relies on less overused texts for illustration as it compiles and organizes the terms and phrases that are often used by the proponents of the discussed theories The most influential literary theories that have so far been developed in academia are included the New Criticism reader response criticism structuralism deconstruction feminism Marxism psychoanalytic criticism linguistic criticism cultural materialism new historicism postcolonialism and semiotics Through eliminating the excesses made in the name of theory this book will restore the faith of students teachers and practitioners in the useful and enduring nature of literary theory for the analysis and appreciation of literature *Literary Theory* Ingo Berensmeyer, 2009 This book is a concise introduction to the major approaches methods and terms in contemporary literary theory It traces the development of literary theory from the late 19th to the early 21st century from varieties of formalism to queer theory postcolonial studies and ecocriticism Written in a clear and accessible style it helps readers to participate in current theoretical discussions and to use theory as a tool for exploring the fascinating complexities of literary texts Amazon de **The End of Literary Theory** Stein Haugom Olsen, 1987-03-19 The essays in this collection are concerned with the philosophical problems that arise in connection with the understanding and evaluation of literature such problems as the relationship between the work and the author authorial intention between the work and the world reference and truth the definition of a literary work and the nature of literary theory itself Professor Olsen attacks many of the orthodoxies of modern literary theory in particular the enterprise to build a comprehensive systematic literary theory His own work is informed by a consistent perspective the assumption that

literature is a social institution governed by conventions and that answers to problems of interpretation and appreciation can be found only through an analysis of these conventions This is an important book for scholars and students of literary theory and philosophy especially for those who see an ever increasing cross fertilization between the two disciplines **In Search of Authority, second edition** Stephen Bonnycastle,1996-01-31 *Literary Theory* Terry Eagleton,1985 **Literary Theory** Jonathan Culler,1997 *Literary Theory Today* Peter Collier,Helga Geyer-Ryan,2007 **Literary Theory: A Complete Introduction** Sara Upstone,2017-05-04 Literary theory has now become integral to how we produce literary criticism When critics write about a text they no longer think just about the biographical or historical contexts of the work but also about the different approaches that literary theory offers By making use of these they create new interpretations of the text that would not otherwise be possible In your own reading and writing literary theory fosters new avenues into the text It allows you to make informed comments about the language and form of literature but also about the core themes concepts such as gender sexuality the self race and class which a text might explore Literary theory gives you an almost limitless number of texts to work into your own response ensuring that your interpretation is truly original This is why although literary theory can initially appear alienating and difficult it is something to get really excited about Imagine you are standing in the centre of a circular room with a whole set of doors laid out around you Each doorway opens on to a new and illuminating field of knowledge that can change how you think about what you have read perhaps in just a small way but also perhaps dramatically and irrevocably You can open one door or many of them The choice is yours Put the knowledge you gain together with your own interpretation however and you have a unique and potentially fascinating response Each chapter in *Literary Theory A Complete Introduction* covers a key school of thought progressing to a point at which you ll have a full understanding of the range of responses and approaches available for textual interpretation As well as focusing on such core areas as Marxism Modernism Postmodernism Structuralism and Poststructuralism this introduction brings in recent developments such as Eco and Ethical Criticism and Humanisms *Literary and Cultural Theory* Donald Eugene Hall,2001 This clear succinct primer for literary theory provides students with a useful guide to contemporary theory and methodologies Theoretical overviews summarize each literary approach for clarification and Application Essays by well known scholars on works by authors such as Shakespeare Austen Melville Faulkner and Angelou represent the stated principles The text helps students generate consistent well focused analyses based on any of ten critical methodologies including New Criticism Psychoanalytic Analysis Deconstruction Feminist Analysis and New Historicism *The Structure of Literary Understanding* Stein Haugom Olsen,1978-04-13 How does a reader respond to a work of literature and how does he begin to evaluate it Mr Olsen attempts to answer these and related questions The book is in two parts In the first three chapters the author demolishes established theories that literature has a special language provides a heightened insight into truth and has emotion as its prime currency In the remaining chapters Mr Olsen constructs and fully illustrates the theory

that understanding of a work of literature comes in two complementary stages first judgements about the author's aesthetic intentions interpretation second appreciation of the aesthetic qualities of the work evaluation At the end of his argument attempting an answer to the question Why is literature important Mr Olsen characterizes literature as an institution and thus forges links with contemporary philosophy which sees all human action as ordered and defined by social institutions
