With chapters corresponding to the chapters in Linton and Matteson's *Medical Surgical Practical Nursing in Canada* this study guide provides a variety of questions and exercises to help you master the PN's role in Canadian medical surgical care. Review exercises include fun activities, multiple choice questions, alternate format questions, and more, all divided by level of difficulty. In the chapters on medical conditions, practical questions help you apply your knowledge directly to real world patient care. This study guide provides the review and practice you need to prepare for the REx PN or CPNRE licensure exams. Comprehensive review reflects the latest Canadian Council for Practical Nurse Regulators (CCPNR) national PN competencies including Ontario and British Columbia. Variety of exercises reinforces learning with matching, multiple choice, multiple response, labelling, diagram, reading fill in the blank, questions, case studies, and more. Consistent format in each chapter.

Part I Mastering the Basics focuses on basic knowledge and comprehension of medical surgical nursing. **Part II Putting it All Together** integrates chapter content related to basic pathophysiology and basic nursing content and focuses on comprehension and application levels. **Part III Challenge Yourself** Getting Ready for PN Examinations focuses on the application or analysis levels of cognitive ability and can include case studies, nursing care plans, and nursing assessment. Questions arranged by level of difficulty move from simple recall to more difficult exercises designed to help you apply, analyze, and synthesize basic concepts. Alternate format questions include multiple response, labelling, prioritizing, ordering, and calculation questions to help you practice for the REx PN and CPNRE licensure examinations. Review questions on care for older adults focus on long term care and community based settings, asking you to apply content to real world practice. Additional review questions are provided on the Evolve website for the textbook.

Flesh and Blood George C. Denniston, Frederick Mansfield Hodges, Marilyn Fayre Milos, 2013-03-09 Who owns your sex organs Different cultures today and in different epochs have given a variety of answers to this question It may seem self evident that every individual owns and has sovereignty over his or her own body parts such as the head legs nose stomach pancreas and other body parts The sex organs however seem to be an exception Even though they are as much an integral part of the individual as a leg or a liver the sex organs are unique in that many cultures have established laws and taboos over the use and even the mere display of the sex organs Thus certain cultures have placed constraints over the individual's ownership of his or her sex organs and actively regulate and restrict the individual's access and use of those organs In other cultures the question of ownership of the sex organs is more decisively answered In any culture where circumcision to any degree of either the male or female is practiced permitted encouraged or even merely tolerated it is clear that the individual is not considered to own his own sex organs In the United States today the medical establishment has created an is considered acceptable and desirable that anyone for environment where it any reason can authorize or execute the amputation of the foreskin from a male child's penis
