English as a Language of Teaching and Learning for Community Secondary Schools in Tanzania Elia Shabani Mlilo, Mikael Mwashilindi, 2017-08-07 This book examines the challenges posed by English a foreign language as a language of teaching and learning for community secondary schools in Tanzania in terms of academic performance The book probes the necessity for having two languages of instruction in the Tanzanian educational system While Kiswahili the native language is predominantly understood by the majority of people the discussion in this book indicates that most students in community secondary schools in Tanzania are incompetent in understanding writing listening reading and speaking English a language they use in learning and doing their examinations especially in the early stages of their secondary studies The incompetence in the above mentioned skills is mostly caused by their inability to cope with the abrupt transition in the languages of instruction from their pre primary and primary school study Kiswahili to secondary school study English Moreover most teachers are unable to use the English language as a means to impart knowledge or facilitate learning to their students leading them to code switching and code mixing This book poses a challenge to countries whose students pass through a transition from one language of instruction to another in their educational systems helping them to make appropriate decisions in regard to the appropriate language of teaching and learning

The Internationalisation of Legal Education Christophe Jamin, William van Caenegem, 2016-04-30 This volume provides an overview of the state of internationalisation of legal education IOLE in many civil law and common law countries It provides a picture of the status of the debate about the shape and degree of internationalisation in the curriculum in the different countries and the debates surrounding the adoption of a more international approach to legal education in the contemporary world It is a compilation of the National Reports submitted for the August 2014 Congress of the IACL held at Vienna and contains an introductory general report Together the reports examine such questions as Why is the topic of internationalization of legal education on the agenda now Why is it a relevant subject for examination today Does the topic generate the same level of interest everywhere in the world Is enthusiasm for IOLE mainly driven by the academic sector by government by multinational corporations Is the interest closely linked with the globalization of the practice of law Or is globalisation of law itself something of a myth or a reality reserved for only a very small percentage of practising lawyers around the world The general and national reports make clear that there is indeed widespread interest in IOLE and numerous disparate initiatives around the world Nonetheless some National Reporters state that the topic is simply not on the agenda at all All in all the volume shows that the approaches to internationalisation are many and varied but every jurisdiction recognises the
