The Truth Pill Dinesh Singh Thakur, Prashant Reddy Thikkavarapu, 2022-10-10 Since 2004 when the fraud at Ranbaxy the largest Indian pharmaceutical company at the time first came to light the Indian pharmaceutical industry and clinical research organizations have been rocked by a series of scandals after investigations by American and European drug regulators While the West has responded to concerns about quality of Made in India medicine by blocking exports from many Indian pharmaceutical companies the Indian government responded not with regulatory reform but conspiracy theories about vested interests working against India More worryingly the Indian state has also turned a blind eye to a far more serious quality crisis in its domestic pharmaceutical market At times these quality issues manifest themselves in the deaths of Indian citizens as happened in early 2020 when 11 children died in Jammu because of adulterated cough syrup On other occasions a dodgy drug approval process has led to the Indian regulator approving sales of drugs that have never been approved by regulators in the developed markets The result is not just poor health outcomes but outsize profits for pharmaceutical companies manufacturing medicines that have never been validated through scientifically rigorous clinical trials for therapeutic evidence These twin crises in both the domestic and export markets is because India has either outdated regulations or no regulations in some areas Even the outdated regulations are enforced with kid gloves by drug inspectors and judicial magistrates who are ready to forgive even those whose drugs are found to contain barely any active ingredient or dangerously high levels of bacterial endotoxins In a race for growth of the pharmaceutical industry the Indian state has sacrificed scientific rigour and ignored the basic principles of public health Given India's position as the pharmacy of the developing world the failure of the Indian state is a problem for not just India but most of the developing world This timely important and compelling book based on deep research questions and analyzes the actions of the institutions that are responsible for the safety and efficacy of the Indian drug supply in the context of the historical evolution of the Drugs Act 1940 from pre Independence India to the present day The future of Indian public health lies in responding to the issues raised in this book

Unheard Witness Jo Scott-Coe,2023-10-17 Written for a general audience this book taps into and reorients the narrative of the 1966 UT Tower shooting the first mass campus shooting to a person and side of this crime that have been too long overlooked Kathy Leissner Whitman who was married to the Tower shooter This book explores Kathy s experience with domestic violence at the hands of the shooter Charles Whitman and her murder as well as the murder of Kathy s mother in law the night before his rampage Scott Coe uses Kathy s letters which have not been available until now to her husband and family to craft a biography that provides a rare glimpse of how one woman expressed and sought to change her life with a coercive and sometimes violent partner during a time when domestic abuse and mass shooting were not part of our vocabulary She traces Kathy s life focusing on the years she spent with Whitman from their whirlwind courtship in her first year at UT through her graduation and beginnings of a career as a teacher despite domestic turmoil up to the last weeks before her death at age 23 In doing so Scott Coe challenges assumptions about Kathy and Charles that have been baked into this story and more broadly about how intimate partners should respond to domestic violence Kathy s story is framed by an introduction and conclusion that place this tragedy in the context of the largely invisible epidemic of domestic abuse in the United States and the link between mass shootings and violence against women in the home A Minor Revolution Adam Benforado,2023-02-07 A revelatory investigation into how America is failing its children and an urgent manifesto on why helping them is the best way to improve all of our lives from the New York Times bestselling author of Unfair The New Science of Criminal Injustice Compelling an extremely sympathetic and worthy attempt to protect kids Benforado has written

a book that reads like a manifesto His ideas are bold to the point and ambitious The Atlantic At the dawn of the twentieth century a bright new age for children appeared on the horizon with progress on ending child labor providing public education combating indigence promoting wellness and creating a juvenile justice system But a hundred years on the promised light has not arrived Today more than eleven million American children live in poverty and more than four million lack health insurance Each year we prosecute thousands of kids as adults while our schools crumble We deny young people any political power while we fail to act on the issues that matter most to them racism inequality and climate change Through unforgettable stories law professor Adam Benforado draws a vivid portrait of our neglect We are there when Ariel is placed in an orphanage after her parents are locked away for transporting marijuana when Harold first gazes in disbelief upon the immaculate lawn of an elite private school after a childhood of asphalt play yards when Wylie is hit with a paddle by his public school principal as punishment for taking a moment of silence to protest gun violence When Tyler runs for governor at age seventeen we are also there to witness the extraordinary capacities of young people Our disregard for children s rights is not simply a moral problem it s also an economic and social one The root cause of nearly every major challenge we face from crime to poor health to unemployment can be found in our mistreatment of kids But in that sobering truth is also the key to changing our fate as a nation Drawing on the latest research on the value of early intervention investment and empowerment A Minor Revolution makes the urgent case for putting children first in our budgets and policies in how we develop products and enact laws and in our families and communities Childhood is the window of opportunity for all of us
